New York World Trade Center Competition:

□□ □□□□□□ □□ □□ ,2003 **The Twin Towers in Film** Randy Laist,2020-02-13 For thirty years the twin towers of the World Trade Center soared above the New York City skyline eventually becoming one of the most conspicuous symbolic structures in the world They appeared in hundreds of films from *Godspell* and *Death Wish* to *Trading Places* *Ghostbusters* and *The Usual Suspects* The politicians architects and engineers who developed the towers sought to imbue them with a powerful visual presence The resulting buildings provided filmmakers with imposing set pieces capable of conveying a range of moods and associations from the sublime and triumphal to the sinister and paranoid While they stood they captured the imagination of the world with their enigmatic symbolism In their dramatic destruction they became icons of a history that is still being written Here viewed in the context of popular cinema the twin towers are emblematic of how architecture film and narrative interact to express cultural aspirations and anxieties *Designing the Global City* Robert Freestone,Gethin Davison,Richard Hu,2018-12-12 This text explores how architectural and urban design values have been co opted by global cities to enhance their economic competitiveness by creating a superior built environment that is not just aesthetically memorable but more productive and sustainable It focuses on the experience of central Sydney through its policy commitment to design excellence and more particularly to mandatory competitive design processes for major private development Framed within broader contexts that link it to comparable urban policy and design issues in the Asia Pacific region and globally it provides a scholarly but accessible volume that provides a balanced and critical overview of a policy that has changed the design culture development expectations public realm and skyline of central Sydney raising issues surrounding the uneven distribution of benefits and costs professional practice representative democracy and implications of globalization *Fox & Fowle Architects* Kira L. Gould,2005 A book that serves as a tribute to the Fox and Fowle architectural firm based in New York **The Domestic and the Foreign in Architecture** Ruth Baumeister,Sang Lee,2007 For centuries across nations dialogue between the domestic and the foreign has affected and transformed architecture Today these dialogues have become highly intensified The Domestic and the Foreign in Architecture examines how these exchanges manifest themselves in contemporary architecture in terms of its aesthetic potential and its practice which in turn are impacted by broad economic cultural and political issues This book traces how diverse cultural encounters inevitably modify conventional categories standards and codes of architecture such as domestic identity its political and economic representations and the negotiations with what is deemed foreign Theoretical reflections by distinguished scholars are accompanied by interviews with some of the most influential architects practicing today as well as stunning visual presentations by professional photographers *New York* ,2003-05 **Social Life** Matthias Benzer,Kate Reed,2019-09-02 In *Social Life* the authors highlight explain and scrutinize socio theoretical analyses of contemporary social relations and conditions put forward by eight modern social theorists and analyse how these have informed sociological inquiries into

people's lives in today's social world. The book discusses the works of the following social theorists: Anthony Giddens, Pierre Bourdieu, Bruno Latour, Donna Haraway, Zygmunt Bauman, Jean-François Lyotard, Michel Foucault, Jean Baudrillard. In each chapter, the authors identify the key components of each theorist's conception of society and apply the theories outlined to specific modern phenomena. This connection with modern-day phenomena allows for a critical interrogation of issues in contemporary society, including Inequality and Capital Power, Fear and Terrorism, Immune System, Discourse, Suffering, and Climate Change. Essential reading for all sociology students studying social theory and the works of modern social theorists.

Designing Pan-America Robert Alexander González, 2023-09-30. Coinciding with the centennial of the Pan American Union, now the Organization of American States, González explores how nineteenth and twentieth-century U.S. architects and their clients built a visionary Pan America to promote commerce and cultural exchange between the United States and Latin America. Late in the nineteenth century, U.S. commercial and political interests began eyeing the countries of Latin America as plantations, farms, and mines to be accessed by new shipping lines and railroads. As their desire to dominate commerce and trade in the Western Hemisphere grew, these U.S. interests promoted the concept of Pan Americanism to link the United States and Latin America and called on U.S. architects to help set the stage for Pan Americanism's development. Through international expositions, monuments, and institution building, U.S. architects translated the concept of a united Pan American sensibility into architectural or built form. In the process, they also constructed an artificial ideological identity: a fictional Pan America peopled with imaginary Pan American citizens, the hemispheric loyalists who would support these projects and who were the presumed benefactors of this presumed architecture of unification. *Designing Pan America* presents the first examination of the architectural expressions of Pan Americanism. Concentrating on U.S. architects and their clients, Robert Alexander González demonstrates how they proposed designs reflecting U.S. presumptions and projections about the relationship between the United States and Latin America. This forgotten chapter of American architecture unfolds over the course of a number of international expositions ranging from the North Central and South American Exposition of 1885-1886 in New Orleans to Miami's unrealized Interama fair and San Antonio's HemisFair '68 and encompassing the Pan American Union headquarters building in Washington, D.C. and the creation of the Columbus Memorial Lighthouse in the Dominican Republic. *Meier* Philip Jodidio, 2013. This text traces the development of Richard Meier, one of the foremost architects of our times, and affords an overview of his projects to date, including the Getty Center in Los Angeles. **Public Affairs Information Service Bulletin**, 1929. **New York Court of Appeals. Records and Briefs.** New York (State),

Planning, 2004. *Editor & Publisher*, 1918. Directory of interactive products and services included as section 2 of a regular issue annually 1995. **Records & Briefs New York State Appellate Division**, *Richard Meier, Architect* Richard Meier, Kenneth Frampton, Joseph Rykwert, 2004. Volume four comprehensively documents Meier's work since the publication of the previous volume in 1999. This extensively illustrated presentation vividly conveys the purity and power of

Meier's unique and celebrated vision **International Trade Reporter**, 1996 **Railroad Gazette**, 1877 *Supreme Court*, **Reports of cases decided in the Appellate Division of the Supreme Court of the State of New York. 3d series**, 2006 **Peter Pran** Peter C. Pran, Christian Norberg-Schulz, 1998
