Sport and the New Zealanders Greg Ryan, Geoff Watson, 2018-08-09 A history of New Zealanders and the sports that we have made our own from the Maori world to today's professional athletes those two mighty products of the land the Canterbury lamb and the All Blacks have made New Zealand what she is in spite of politicians' claims to the contrary wrote Dick Brittenden in 1954 For many in New Zealand prowess at sport replaces the social graces in the pubs during the furious session between 5pm and closing time an hour later the friend of a relative of a horse trainer is a veritable patriarch No matador in Madrid no tenor in Turin could be sure of such flattering attention As Brittenden suggested sport has played a central part in the social and cultural history of Aotearoa New Zealand throughout its history This book tells the story of sport in New Zealand for the first time from the Maori world to today's professional athletes Through rugby and netball bodybuilding and surf lifesaving the book introduces readers to the history of the codes the organisations and the players It takes us into the stands and on to the sidelines to examine the meaning of sport to its participants its followers and to the communities to which they belonged Why did rugby become much more important than soccer in New Zealand What role have Maori played in our sporting life Do we really punch above our weight in international sport Does sport still define our national identity Viewing New Zealand sport as activity and as imagination Sport and the New Zealanders is a major history of a central strand of New Zealand life

**Sports Law in New Zealand** Elizabeth Toomey, Colin Fife, 2019-01-07 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in New Zealand deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in New Zealand will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law
