both rewarding as well as enjoyable It always helps when you understand WHY something is happening instead of reacting to a surprise happening For example If you know ahead of time that you have an old worn out fuse in your refrigerator Then suddenly all the electricity in your refrigerator goes out No need to panic No need to think horrific thoughts to yell to get upset nor thinking of the cost of buying a new refrigerator because you know that it is the fuse You can relax and think clearly Simply replace that fuse and the problem is solved You becoming a wiser Parent has already purchased a replacement fuse for this very event when it does fail or go out So you were prepared for the problem and reacted properly Hopefully this book will give you some not all advance insights on things and events to watch out for be aware when raising your child So you can be little better prepared and you can react properly Remember Nothing nothing Is more important than the way that you React to it
