## JAMES GEARD

"We hear members of the Council saying on the one hand they are for their tenants security and, on the other, doing as much as they can to prevent the same tenants at least exploring the alternatives that could be made available to them," he told *The Star*.

Mr Geard pointed out that the latest document from the Department of the Environment, 'Tenants Choice' lists as one of the Government's objectives give tenants better choice through a landlord

landlords is not the case as he claims because there has to be a ballot of tenants.

"He is insulting tenants' intelligence if he thinks they will be fooled into voting 'yes' - whatever the voting method."

Mr Brooks said Mr Askew's support of transferring Council estates to Housing Associations showed how "dismally out of touch" he was with public opinion.

Tenants opposed having their homes disposed of that fashion because they knew it would mean massive rent increases and loss of security of tenure and rights, he said.

**Rewriting the Newspaper** Thomas R. Schmidt, 2019-06-19 Between the 1970s and the 1990s American journalists began telling the news by telling stories They borrowed narrative techniques transforming sources into characters events into plots and their own work from stenography to anthropology This was more than a change in style It was a change in substance a paradigmatic shift in terms of what constituted news and how it was being told It was a turn toward narrative journalism and a new culture of news propelled by the storytelling movement Thomas Schmidt analyzes the expansion of narrative journalism and the corresponding institutional changes in the American newspaper industry in the last quarter of the twentieth century In doing so he offers the first institutionally situated history of narrative journalism's evolution from the New Journalism of the 1960s to long form literary journalism in the 1990s Based on the analysis of primary sources industry publications and oral history interviews this study traces how narrative techniques developed and spread through newsrooms advanced by institutional initiatives and a growing network of practitioners proponents and writing coaches who mainstreamed the use of storytelling Challenging the popular belief that it was only a few talented New York reporters Tom Wolfe Jimmy Breslin Gay Talese Joan Didion and others who revolutionized journalism by deciding to employ storytelling techniques in their writing Schmidt shows that the evolution of narrative in late twentieth century American Journalism was more nuanced more purposeful and more institutionally based than the New Journalism myth suggests
