Media Management Stephen Lacy,Jan

LeBlanc Wicks,1993 This book grew out of the collective needs of media management scholars to explore the theory and

practice of the field through case analysis Although research studies exist in several different scholarly journals and

applicable cases are available through various sources this work represents one of the first efforts to combine the broad

concerns of the field with relevant cases Approaching media management as a decision making process this book provides a

framework and materials for analysis discussion and problem solving within various media such as ad agencies cable

companies magazines newspapers and broadcasting stations All cases however are designed to illuminate not only the

differences present in management environments but the similarities between media companies 48 short cases and three

extended cases allow students to apply what they learn from reading and class discussions to situations faced by media

managers The book s goals are to provide access to a seldom used approach to discussing media management to supplement

currently available materials concerning issues relevant to managing a media organization Practice in evaluative and

descriptive analyses is provided which seeks to suggest questions for individual research as well as more formal classroom debate and discussion Original cases researched and written by the authors former managers and or employees in media organizations are included throughout this volume   **El-Hi Textbooks in Print ,1974**   **Business Organizations, Agencies, and Publications Directory ,1986**   **Newspaper organization and management. 5. ed** Herbert Les Williams,1978
