Objectivity Liberal Scholarship:

Objectivity and Liberal Scholarship Noam Chomsky, 1997-04-01 Objectivity and Liberal Scholarship is Chomsky's powerful indictment of a liberal intelligentsia that provided self-serving arguments for war in Vietnam legitimizing U.S. commitment to autocratic rule to intervention in Asia and ultimately to the pacification of millions. Over thirty years after their first printing these are prophetic words as today America effects regime change in Iraq and an increasingly boisterous militarism around the globe. Included here is Chomsky's classic counter-analysis of the Spanish Civil War as a revolutionary war from below as he lays bare the hostility of even liberal scholarly elites to engage in mass movements and social change revealing not objectivity but its opposite: the use of ideology to mask self-interest and obedience to power. Objectivity and Liberal Scholarship is a crucial signpost of Chomsky's searing contribution to our age and an indispensable lens through which to consider mainstream punditry today. **BOOK JACKET**

 this flood of publishing and republishing very little ever gets said about what exactly Chomsky stands for his own personal
 politics his vision of the future Not that is until Chomsky on Anarchism a groundbreaking new book that shows a different
