Objects Of Social Science:

The Objects Of Social Science Eleonore Montuschi Staff,2006-01-01 *Deleuzian Intersections* Casper Bruun Jensen,2009-11-01 Science and technology studies cultural anthropology and cultural studies deal with the complex relations between material symbolic technical and political practices In a Deleuzian approach these relations are seen as produced in heterogeneous assemblages moving across distinctions such as the human and non human or the material and ideal This volume outlines a Deleuzian approach to analyzing science culture and politics **Items - Social Science Research Council** Social Science Research Council (U.S.),1960 **The Decennial Publications of the University of Chicago** University of Chicago,1903 **Investigations Representing the Departments** University of Chicago,1903

Integrating Knowledge Through Interdisciplinary Research Dominic Holland,2013-08-22 In this important new text Holland seeks to explain by means of social scientific and philosophical inquiry the difficulties that researchers often experience when attempting to integrate knowledge from different academic disciplines either individually or as part of a team of subject specialists It is argued that the difficulty of integrating knowledge from different academic disciplines is the result of firstly an inadequate justification of the nature of scientific integration and differentiation and secondly the dominance of disciplinary specialization in scientific inquiry By focusing on both the theoretical justification for and the practical feasibility of integrating knowledge through interdisciplinary research this book asks what properties of reality make the integration of knowledge from different academic disciplines possible and to what extent it is feasible to integrate knowledge through interdisciplinary research within a traditional disciplinary context Accordingly the text is both philosophical and social scientific in content philosophical in the sense that it presents a theory of causal determination which will help researchers to understand how reality is both differentiated and interconnected social scientific in the sense that it presents the results of three case studies of collaborative interdisciplinary research projects The book is heavily informed by the philosophy of critical realism The philosophical argument about the possibility of integration and specialization in science draws explicitly on some of the key concepts of critical realism particularly those comprising the theory of integrative pluralism while critical realist assumptions underpin the social scientific argument about the causal influence of the social system of knowledge production By exploring researchers conceptions of knowledge and of reality on the one hand and their decisions about what sort of knowledge to produce on the other Holland shows how the difficulty of scientific integration is both a problem of knowledge and a problem of knowledge production This book is essential reading for students and academics interested in the emerging topic of knowledge integration and interdisciplinarity Personnel Journal ,1929 *Understanding the Knowledge Society* Andrea Cerroni,2020-05-29 Complex knowledge and ideas are generated shared and accessed globally Andrea Cerroni turns to this knowledge society to offer a comprehensive social theory of its processes to bridge the gap between knowledge and democracy Drawing on a long term historical perspective

Cerroni assembles a cultural matrix comprising ancient myths on nature society and knowledge and modern myths of reductionism individualism and relativism to improve our contemporary sociological imagination *The High School* ,1928

Critical Realism for Marxist Sociology of Education Grant Banfield,2015-09-16 This book offers a critical realist intervention into the field of Marxist Sociology of Education Critical realism as developed by British philosopher Roy Bhaskar is known for its capacity to serve as a conceptual underlabourer to applied fields like education Indeed its success in clarifying and resolving thorny issues of educational theory and practice is now well established Given critical realism s sympathetic Marxist origins its productive and critical engagement with Marxism has an even longer history To date there has been little sustained attention given to the application of critical realism to Marxist educational praxis The book addresses this gap in existing scholarship Its conceptual ground clearing of the field of Marxist Sociology of Education centres on two problematics well known in the social sciences naturalism and the structure agency relation Marxist theory from the days of Marx to the present is shown to also be haunted by these problematics This has resulted in considerable tension around the meaning and nature of for example reform revolution class determinism and class struggle With its emergence in the 1970s as a child of Western Marxism the field continues to be an expression of these tensions that seriously limit its transformative potential Addressing these issues and offering conceptual clarification in the interests of revolutionary educational practice *Critical Realism for Marxist Sociology of Education* provides a new perspective on education which will be of interest to students scholars and practitioners alike **Official Digest of the World** ,1912
