## **Obsession And Culture:**

*Obsession and Culture* Andrew Brink, 1996 Many twentieth century novelists speak for a male psycho class needing imaginative externalization of obsessive sexual fantasies of control of women Attraction avoidance and guilt are powerful motivators for writers and readers alike and the moral ambiguity of serial monogamy as well as other forms of exploitative sexuality prompt certain writers to construct symbolic expiation and repair in fiction

*Narrative Podcasting in an Age of Obsession* Neil Verma, 2024-06-03 It has been a decade since Serial brought the narrative podcast to the center of popular culture In that time there has been an enormous boom in the production of podcasts that tell stories particularly in the fields of true crime storytelling history and narrative fiction Now that the initial glow around the medium has begun to fade it is time to reevaluate the medium's technological political economic and cultural rise in particular what types of storytelling accompanied that rise *Narrative Podcasting in an Age of Obsession* is the first book to look back on this prodigious body of material and attempt to make sense of it from a structural historical and analytic point of view Focusing on more than 350 podcasts and other audio works released between Serial and the COVID pandemic the book explores why so many of these podcasts seem obsessed with obsession why they focus not only on informing listeners but also dramatizing the labor that goes into it and why fiction podcasts work so hard to prove they are a brand new form even as they revive features of radio from decades gone by This work also examines the industry's reckoning with its own implication in systemic racism misogyny and other forms of discrimination Employing innovative new critical techniques for close listening including pitch tracking software and spectrograms *Narrative Podcasting in an Age of Obsession* makes a major contribution to podcast studies and media studies more broadly
