Occult Astrology:

The Horoscope, a quarterly review of astrology and occult science, ed. by R. Ireton Rollo Ireton, 1902 Occult Astrology predates modern Astronomy Helena Petrovna Blavatsky, 2019-09-17 Astrology existed before astronomy and Astronomus was the title of the highest hierophant in Egypt Among the stars and constellations the planets alone had a right to the title of Theoi Gods i e to run or to circulate The angels worshipped in the Church of Rome are none else than their Seven Planets the Dhyani Chohans of Buddhistic Esoteric Philosophy or the Kumaras the mind born sons of Brahm There are seven Kumaras four exoteric and three secret They are all Virgin Gods who remain eternally pure and innocent and decline to create progeny In their primitive aspect these Aryan seven mind born sons are not the regents of the planets but dwell far beyond the planetary region Archangel Michael is called the invincible virgin combatant as he refused to create which would connect him with both Sanat Sujata and the Kumara who is the God of War called in the Hindu system the eternal celibate and the virgin warrior He is the Aryan St Michael The whole sidereal court of the Babylonian heaven was represented in the temples by globes made of sapphires supporting golden images of their respective gods An immense machine fabricated for King Chosroes in Persia represented the night sky with the planets and all their revolutions and with angels presiding over them All the discoveries of modern astronomy like all the secrets that can be revealed to it in future ages were contained in the secret observatories and Initiation Halls of the temples of old India and Egypt Uranus is a modern name The ancients had a planet a mystery planet that they never named and that only the highest Astronomus the Hierophant could confabulate with But this seventh planet was not the sun but the hidden Divine Hierophant who was said to have a crown and to embrace within its wheel seventy seven smaller wheels The rapid growth of human intellect has paralysed spiritual perceptions It is at the expense of wisdom that intellect generally thrives and mankind is quite unprepared in its present condition to comprehend the awful drama of human disobedience to the laws of Nature and the subsequent Fall as a result Occultism has a strange theory of its own with regard to Neptune We lift our diminished heads and look heavenward worlds suns and stars the shining myriads of the heavenly hosts remind the poet of an infinite shoreless ocean whereon move swiftly numberless squadrons of ships millions upon millions of cruisers large and small crossing each other whirling and gyrating in every direction But there are no proofs of the existence and presence in space of intelligent supramundane Beings of either Gods or Angels It is the behaviour of the stars and planets themselves that has to be analysed and inferences be drawn therefrom

Esoteric Astrology Alice A. Bailey, Djwhal Khul, 2012-12-01 The science of esoteric astrology is said to be the basic occult science of the future Astrology is described in this book as the science of relationships a science which deals with those conditioning energies and forces which play through and upon the whole field of space and all that is found within it

Hartmann's Who's who in Occult, Psychic and Spiritual Realms...in the United States and Foreign Countries, 1927 *Esoteric Astrology* Alice A. Bailey, 1975-12-01 The science of esoteric astrology is said to be the basic occult science

for the future It will come into its own as the esoteric or soul factors begin to supersede the exoteric focus of the vast majority of professional and amateur astrologers today This is the science which deals with those conditioning and governing energies and forces which play through and upon the whole field of space and all that is found within that field The Ancient Wisdom teaches that Space is an entity It is with the life of this entity and with the forces and energies the impulses and the rhythms the cycles and the times and seasons that esoteric astrology deals Esoteric astrology can be applied by the trained worker in a variety of ways in medicine psychology science education to an evaluation of human problems of the destiny of nations of a correct interpretation of world affairs and so on It is necessary however that at this stage the application of esoteric astrology to human life should be recognised as experimental and tentative so that each individual worker can adjust his thinking and his methods according to his own wrought out experience to work depend entirely on a consciousness evolving out of control by the personality into the life of the soul out of separateness and self centredness into a realisation of unity and absorption into a centre of group consciousness Astrology is described in this book as the science of relationships the relationship existing between all living organisms within the universe Not only the qualities of the ray energies affect these centres of consciousness but also the quality and energy of the ruling planets and the zodiacal signs Seen from the exoteric outside astrology is a vast and most involved and complex subject From the esoteric inside while it is still vast all inclusive and complex it is also possible to perceive the thread which unites and the pattern which prevails throughout the whole system A basic simplicity in the grand design emerges therefore which can serve to interpret the whole study 1 The Zodiac and the Rays 2 The Nature of Esoteric Astrology 3 The Science of Triangles 4 The Sacred and Non Sacred Planets 5 Three Major Constellations 6 The Three Crosses 7 The Rays Constellations and Planets In addition there is an appendix which summarises and tabulates many of the factors of fundamental importance to the study of esoteric astrology This is a book for the true occult student It may appear to be too highly specialised for some but every esoteric worker finds eventually that his work requires an understanding of the basic astrological factors which affect all relationships and all forms of life within the ethers of space so that he may learn how to cooperate intelligently in the evolution of the whole by the right adjustment of the part within that whole until eventually the many are absorbed into the One The books of Alice A Bailey written in cooperation with a Tibetan teacher between 1919 1949 constitute a continuation of the Ageless WisdomCa body of esoteric teaching handed down from ancient times in a form which is always suitable to each period writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution the spiritual Hierarchy the new discipleship and training in meditation as a form of service the teaching on the seven rays and the new psychology of the soul the teaching on esoteric astrology and the new world religion which emphasizes the common thread of truth linking all the major world faiths **Esoteric Astrology** Alan Leo,1913 [Astrology for Mystics](#) Tayannah Lee McQuillar,2021-02-16 A guide to discovering and developing the spiritual and mystical talents hidden in your astrological

chart Explores the 4th 8th and 12th houses of the natal astrological chart those connected with the water signs the deepest and darkest areas of the individual psyche profound spiritual insights and hidden knowledge Explains how to interpret the signs and planets in the water houses of your birth chart including how to develop the innate talents and spiritual powers you discover Reveals the occult and psychic significance of water and shows how this significance is expressed in each of the three water signs Cancer Scorpio and Pisces the rulers of the water houses Your astrological birth chart or natal chart shows the positions of the planets sun and moon at the time of your birth Shaped like a circle or wheel it is divided into 12 sections or houses each connected with a different area of life or self The positions of the planets within the houses offer deep and often complex insight into your unique gifts and your life s path In *Astrology for Mystics* Tayannah Lee McQuillar explores the 4th 8th and 12th houses those connected with the element of water and all things occult mystical and spiritual The fourth house ruled by water sign Cancer is traditionally the house of family home ancestors and suffering The eighth house ruled by water sign Scorpio is the house of sex death secret powers and transformation The twelfth house ruled by Pisces is the house of karma loss unspoken expectations fantasy and confinement As McQuillar explains these are the houses that reveal the deepest and darkest areas of the individual psyche which many people are reluctant to explore yet this triad is the key to profound spiritual insights as well as the discovery of hidden knowledge and abilities The author guides you through interpreting the signs and planets that inhabit the water houses in your natal chart and shows how they reveal specific innate talents She describes how to develop the hidden powers revealed by your chart and offers practical advice for incorporating this knowledge into your daily life for spiritual growth and self improvement Sharing interpretation examples from her practice she also explores how to embrace the challenge of the occult water houses so you can claim the many treasures that can only be found on the ocean floor of the psyche
