Management in Occupational Therapy Z. B. Maslin, 2013-12-14 My aim in writing this book was to provide a guide to management for student occupational therapists and practitioners in the field It is not intended to provide an answer to every conceivable management situation The organization and delivery of health and social services is being subjected to relentless scrutiny and change Hardly has one proposal been implemented before another one is introduced In view of this the thrust of this book is to highlight key points to be addressed when looking at the delivery of occupational therapy services For this reason the book starts from the viewpoint of one who is in the early stages of an occupational therapy career through to the position of having to manage the staff in an occupational therapy departmental service Following this plan the book has been organized into two parts Part One

covers issues that an occupational therapist has to confront directly in any job situation. In this situation she will need to know what is expected of her. Apart from knowing about the various duties it is necessary to understand the context in which these duties are to be conducted. Hence there are chapters that discuss professional responsibilities, self management standards of practice and the structure of the two biggest employers of occupational therapists: the NHS and local authority social services departments.

Leading & Managing Occupational Therapy Services Brent Braveman, 2022. This text seeks to address the common functions, responsibilities and duties of occupational therapy leaders and managers. Many of these are in common with those faced by leaders and managers in other healthcare disciplines including nursing, physical therapy, social work, case management and others. The management functions most commonly identified include a planning, b organizing and staffing, c controlling and d directing. There are sometimes variations because some authors may pull the function of staffing out from that of organizing and present five rather than four categories. Nonetheless a discussion of leadership and the basic functions of management and their relationship to leading and managing evidence based practice is a logical place to begin.

The Occupational Therapy Manager Jeanette Bair, Madelaine Gray, 1992. Functions of a Manager in Occupational Therapy Karen Jacobs, Martha K. Logigian, 1989. The occupational therapy manager faces a broad spectrum of responsibilities. This book discusses many topics to help define the roles, challenges, goals of a manager in a changing health care environment. Includes information on marketing, cost accounting as well as a chapter on developing a program. Each chapter concludes with multiple choice questions, answers along with case studies to help apply the material.

Functions of a Manager in Occupational Therapy Revised Edition contains a wealth of information to help today's health care professional become more accomplished in the roles of planner, organizer, budgeter, director, supervisor, leader, helping to create a successfully managed department.

The Occupational Therapy Manager Margo Johnson, 1996.
