independent scientists and elevate its own flawed research a campaign with echoes of Big Tobacco's fight to deny the connection between smoking and lung cancer. They chronicle the tragic fates of players like Hall of Fame Pittsburgh Steelers center Mike Webster who was so disturbed at the time of his death he fantasized about shooting NFL executives and former San Diego Chargers great Junior Seau whose diseased brain became the target of a scientific battle between researchers and the NFL. Based on exclusive interviews previously undisclosed documents and private e-mails League of Denial is the story of what the NFL knew and when it knew it questions at the heart of a crisis that threatens American football and of the battle for the sport's future.
