Dumych,1998-06-01 This book portrays Niagara Falls as it once was between the mid 1800s to the late 1960s Once a small tourist town a great industrial city was built based upon the very thing

that first attracted visitors the Falls became a revolutionary source of hydroelectricity After World War II however the city's industries gradually declined and one by one relocated to other parts of the United States The late 1950s and 1960s show a paradoxical time for the city An immense new power station was constructed immediately north of the city while urban renewal methodically destroyed the city's beloved albeit by then grossly neglected Falls Street business district leaving behind a confused patchwork of vacant lots     *The Falls of Niagara* Washington F.
