Ocean Liners:

Floating Palaces William H. Miller, 2010-12-15 The story in words and pictures of the Floating Palaces the transatlantic liners that were as much floating art as a means of transport **Ocean Liners of the 20th Century** Gordon R.

Newell, 1963 Photos and stories behind the names of the great ocean liners **A History of Ocean Liners in 50 Objects** Mark Berry, 2020-12-04 Explore the history of ocean liners through the objects that bring them to life Liners represented the ambitions of their nations in peace and war their design interiors and fittings incorporated the finest contemporary technological and artistic features In peacetime they carried celebrities vacationers and emigrants while in war they carried thousands of troops and then war brides seeking new lives A History of Ocean Liners in 50 Objects takes in evolving technology supreme luxury and fine cuisine as well as hardship and the burning hope for a better life There is peril disaster and death international pride and competition glory and war The objects tell a fascinating story showing how the functional sea voyage has evolved from the late nineteenth and early twentieth century to the huge cruise industry we have today

Ocean Liners Peter Newall, 2018-01-30 A truly comprehensive publication running the gamut from the first Atlantic sail enhanced steamers to today's remaining handful of combi liners Maritime Matters Before the advent of the jet age ocean liners were the principal means of transport around the globe and carried migrants and business people soldiers and administrators families and lone travelers to every corner of the world Though the ocean liner was born on the North Atlantic it soon spread to all the other oceans and in this new book the author addresses this huge global story The account begins with Brunel's Great Eastern and the early Cunarders but with the rise in nationalism and the growth in empires in the latter part of the 19th century and the opening of the Suez Canal in 1869 the colonial powers of Spain France and Germany soon established shipping lines of their own and transpacific routes were opened up by Japanese and American lines The golden age between the two world wars witnessed huge growth in liner traffic to Africa Australia and New Zealand India and the Far East the French colonies and the Dutch East and West Indies but then though there was a postwar revival the breakup of empires and the arrival of mass air travel brought about the swan song of the liner Employing more than 250 stunning photographs the author describes not just the ships and routes but interweaves the technical and design developments covering engines electric light navigation and safety and accommodation A truly unique and evocative book for merchant ship enthusiasts and historians *Picture History of British Ocean Liners, 1900 to the Present* William H. Miller, 2001-01-01

This fascinating text and picture tribute documents both interiors and exteriors of majestic British ships such as the Viceroy of India the Orion Queen Mary Queen Elizabeth Windsor Castle Pacific Princess Royal Princess Crown Princess and Aurora Over 200 rare black and white illustrations provide views of the ships at sea and in port **Cunard-White Star Liners of the 1930s** William H. Miller, 2015-11-15 William H Miller Mr Ocean Liner looks back at the great ships owned and operated by Cunard White Star during the 1930s *The Last Atlantic Liners* William H. Miller, 2011-03-15 The golden age of liners in

photographs and artwork **Great Atlantic Liners of the Twentieth Century in Color** William H. Miller, Anton Logvinenko, 2013-01-15 Profusely illustrated with color illustrations **Ocean Liners** Karl Zimmermann, 2008 Ocean liners once sailed all the world's seas and played important roles in times of peace and war. Ships transported the rich and famous as well as millions of immigrants to new countries. Over time, airplanes changed the nature of travel and the role of the ocean liners. Today's cruise ships are dramatically different from the liners of old, bigger than ever, they are like small cities on the water. *Ocean Liners of the 20th Century* Gordon Newell, 2017-01-12 With his vast collection of photographs and memorabilia combined with his skill as a writer, Newell truly makes the ships and memories of them become living personalities. How Jack London, Count von Luckner, Sir Ernest Shackleton and all other intrepid adventurers of the sea would have gloried in this book and present-day sea rovers, you how you will glory in it. Here are the glamour, majesty and color of the most exciting things ever built, the mammoths of the sea. Gordon Newell's salty stories and fine photos bring these monarchs and superliners to life so completely that you hear once more the deep-throated whistle blasts as the ships knife their way out of the fog, one after another. I am not recording affection for the Mauretania as President of the United States but as civilian Franklin D. Roosevelt who loves the sea, its ships and the men who sail them. Writes F. D. R. in his story *Queen with a Fighting Heart*. Author Gordon Newell shares these sentiments. The Kronprinz Wilhelm, he writes, was not a ship to give up easily. Night was falling, the darkness would give her a fighting chance. The last of the fuel was shoveled into the furnaces. The worn-out engines were breaking their hearts for the ship out of the night, she came, the sky glowing red above the crowns of her belching funnels. The white glow of acres of foam at her bow. The guns of the British cruisers swung around.

Famous Ocean Liners William H. Miller, 1987 History of 20th-century passenger ships including the Titanic, the Lusitania, the Mauretania, Normandie and the United States **The Fabulous Interiors of the Great Ocean Liners in Historic Photographs** William H., Jr. Miller, 2013-07-24 200 superb photographs capture exquisite interiors of world's great floating palaces, 1890s to 1980s. Titanic, Ile de France, Queen Elizabeth, United States, Europa, more. **Ocean Liners** Bill Miller, 1990-04 Ontstaan en ontwikkeling van de transatlantische lijndiensten met een beschrijving van enkele beroemde schepen SS United States William H. Miller, 2009-10-15 The story of the world's fastest passenger liner from Blue Riband winning maiden voyage to abandonment in Philadelphia and her possible restoration as the most famous ocean liner of the post-war period *Ocean Liners* Oliver LeGoff, 1999-10 Ocean Liner depicts in both fascinating drawings and stunning photographs fifty of the most famous passenger ships from the Kaiser Wilhelm built in 1897 to the huge cruise ships that hold thousands of passengers plying the Caribbean trade routes *The Great Liners Story* William H. Miller, 2012-03-30 This illustrated and colourful history charts the heyday of the great liners, those grand and lavish vessels that cruised around the world carrying their glamorous passengers from port to port. Decorated to the highest of finishes, fitted out in the most luxurious of styles, these floating palaces epitomised their opulent age. Their iconic names from Titanic to Mauretania from

Queen Elizabeth to QE2 conjure up visions of power grace elegance and nostalgia for this golden age of travel Written by maritime and cruise liner expert William Miller and accompanied by stunning photographs artworks Did You Know facts and quotations The Great Liners Story is a must have addition to any maritime library *Ocean Liners* Anthony Burton,2024-07-30 Examines the realities of ocean liner travel revealing contrasts between luxurious experiences and harsh immigrant conditions throughout history There has always been a romance around ocean liners but this book looks behind the romance to show the reality of travelling the oceans of the world The book starts with the first scheduled transatlantic crossings in the age of sail then moves on through the development of the steamers and ends in the present day when ocean liners have given way to airliners All aspects of the subject are discussed The experience of travelling by sea varied enormously from the luxury of first class travel to the often brutal conditions endured by immigrants Ship design developed in the race between competing companies to provide the most powerful ships But while technology came into the fundamental design when it came to decor for many of the great liners the interiors looked back with a romanticised view of the past It is not always realised that a great liner might have almost as many crew as passengers and this looks at all those who kept the ships running from the black gang in the engine room to the captain on the bridge The result is a rounded view of what it meant to travel on some of the greatest ships ever built Along the Hudson William H. Miller,2012-07-15 The glamour age of ocean liner travel was the 1950s Nothing could compete with the ocean liner and huge profits were made by the shipping lines William H Miller tells the story of Luxury Liner Row in this Golden Age *P & O Orient Liners of the 1950s and 1960s* William H. Miller,2014-10-15 Bill Miller looks back nostalgically at the P O and Orient Line vessels of the 1950s and 1960s **SS United States** William Miller,2022-01-20 SS United States the most advanced liner of her time captured the prized Blue Riband for transatlantic speed brought glory to America and enjoying success for a full decade After trans ocean jets arrived success faded until decommissioned by 1969 Years of neglect and decay followed To this day the she rests silently at a Philadelphia pier
