Curran integrates diverse approaches of treatment and emphasizes the unique role that trauma plays in mental health. Underlying this eclectic strategy is the common theme emphasizing that healing will only begin when the trauma related feelings embedded in the body are appreciated. Stephen W Porges Ph D author of *The Polyvagal Theory* An interesting compendium of potential interventions that can be interwoven into any therapist's existing conceptual framework. Louis Cozolino Ph D Pepperdine University and author of 5 books including the best seller *The Neuroscience of Psychotherapy* *Healing the Social Brain* 2nd edition **The Whole-Hearted Healing Workbook** Paula Courteau, 2013-07-01 This book at long last is the first Whole Hearted Healing tutorial written for the general public. For over 15 years Whole Hearted Healing has proven its worth as an effective trauma healing technique that puts all the control in the hands of the client and radically transforms problems into positive feelings. Some key insights by its developer Grant McFetridge translate into a remarkable rate of success. This book is intended for people with various levels of experience with regression therapies and Peak States work. For determined beginners it is a suitable guide to learning the technique on their own. For people who have attended a basic Whole Hearted Healing or Peak States workshop it is an in depth review of the material they covered. For people who have practised WHH for a few years using *The Basic Whole Hearted Healing Manual* as a guide it is an update written for laypeople that includes the latest advances in our understanding of traumas and healing. For therapists it is an aid in explaining WHH to clients and in empowering them to participate fully in their own healing. And it's an entry level textbook for students working with peak states of consciousness. **Preparing for Trauma Work in Clinical Mental Health** Lisa Compton, Corie Schoeneberg, 2020-09-08 This workbook is a foundational and unique resource for clinicians preparing to work with clients affected by trauma. Chapters integrate a holistic understanding of the unique client within trauma specific case conceptualization. Promote trainees identification of personal values and past experiences that could impact their ability to provide safe and ethical services and offer ways to reduce the risk of occupational hazards such as vicarious traumatization. The trauma treatment process is presented within the tri phasic framework which is applicable across settings disciplines and various theoretical orientations. Each chapter also provides experiential activities that link the chapter content with clinician reflection and application of knowledge and skills which instructors and supervisors can easily utilize for evaluation and gatekeeping regarding a student's mastery of the content. An ideal resource for graduate level faculty and supervisors this book offers a versatile application for mental health related fields including counseling psychology social work school counseling substance abuse and marriage and family therapy. Designed for students and professional clinicians this groundbreaking text fills an important education and training gap by providing a comprehensive and enlightening presentation of trauma work while also emphasizing the clinician's growth in self awareness and professional development. **Trauma Treatment Techniques** Jacqueline Garrick, Mary Beth Williams, 2014-05-22 Examine alternative techniques for dealing with post traumatic stress disorder. *Trauma Treatment Techniques Innovative Trends*

examines alternative approaches to talk therapies that help relieve stress in trauma survivors. Experts in a range of practice areas present mental health providers with methods that augment or go beyond traditional techniques including art therapy, virtual reality, humor, residential programs, emotional freedom techniques, EFT, traumatic incident reduction, TIR, and thought field therapy, TFT. This unique book serves as a primer on new and creative means of working with combat veterans, survivors of child abuse, victims of rape, and other violent crimes, refugees, victims of terrorism, and disaster survivors. Since the late 19th century, mental and medical health professionals, social workers, clinicians, and counselors have attempted to help patients mitigate symptoms and reduce distress by employing a variety of treatment techniques, methods, strategies, and procedures. *Trauma Treatment Techniques: Innovative Trends* represents a significant addition to the available literature on post-traumatic stress disorder (PTSD) and acute distress, providing therapists with much-needed options in their efforts to help trauma sufferers recover, find new meaning and reach for new hopes and happiness. *Trauma Treatment Techniques: Innovative Trends* examines debriefing interventions in school settings, instructions and safeguards for using emotional freedom techniques (EFT) when debriefing in disaster situations, the use of creative art therapies to reach out to war refugees, the use of virtual reality-based exposure therapy (VRE) to desensitize Vietnam veterans with PTSD from traumatic memories, humor as a healing tool, repressed memory physiology and meridian treatment points in the body, a six-step methodology for diagnosing PTSD, a 90-day residential program for treatment of PTSD, PTSD motivation enhancement, ME groups, autism as a potential traumatic stressor, and much more. *Trauma Treatment Techniques: Innovative Trends* is an invaluable resource of inventive techniques that offer hope for recovery to anyone who has suffered life's worst injuries.
