Popular Mechanics, 1984 **Time** Briton Hadden, 1989 *The Publishers Weekly*, 1923 **Maintenance of Everything** Stewart Brand, 2026-01-20 The first in-depth exploration of maintenance and a powerful argument for its civilizational importance from the author of *How Buildings Learn* and creator of the *Whole Earth Catalog*. Maintenance is what keeps everything going. It's what keeps life going. Yet it's also easy to shirk or defer until the thing breaks; the system falters and everything stops. The apparent paradox is profound: Maintenance is absolutely necessary, and maintenance is optional. The first in a multi-volume work, *Maintenance Of Everything: Part One* offers a comprehensive overview of the civilizational importance of maintenance. The book begins with a dramatic contest of maintenance styles under life-critical conditions: the Golden Globe around the world solo sailboat race of 1968. It goes on to explore the insights that can be gleaned from vehicle maintenance, from the zeal of motorcycle maintainers to the maintenance philosophies that fought for dominance of the auto industry to the state of electric vehicle manufacturing today, with absorbing detours into the evolution of precision in manufacturing, the enduring importance of manuals, sustainment in the military, and the never-ending battle against corrosion. *Maintenance Of Everything* is a wide-ranging and provocative call to expand what we mean by maintenance, not just the tiresome preventative tasks but the whole grand process of keeping a thing going. It invites us to understand not only the profound impact maintenance has on our daily lives but also why taking responsibility for

maintaining something whether a motorcycle a monument or our very planet can be a radical act No one else but Stewart Brand is talking about the art and science of maintenance and how to do it well This will be an instant classic Kevin Kelly founding executive editor of Wired A deliciously good book Matt Ridley author of The Rational Optimist *The Book Buyer's Guide* ,1966 *British Books* ,1920 Motor Trend ,1969 **Catalog of Copyright Entries.
