## **My Best Of Extinct Animals:**

My Best Book of Extinct Animals Christiane Gunzi, 2004 From sea bass to Siberian tigers this volume introduces species that are either extinct or could be soon. It highlights the habitat that these animals need to survive as well as discussing species such as the bald eagle once on the brink of extinction but now growing in numbers. *The Best 195 Classics Ever Written - Volume 3* Various, 2013-11-10 Compiled in 4 volumes *The Best 195 Classics Ever Written* brings together exceptional works by distinguished authors including renowned names like Charles Dickens, Henry James, Jane Austen, and William Shakespeare. Aiming to provide the best compilation of classical works for its lovers, this amazing collection has a wonderful blend of relationships, emotions, fantasy, and adventure that attracted everyone for generations and inspired many films, television serials, and stage adaptations. *The Best of Jules Verne* Jules Verne, 2016-06-14 Four iconic novels of adventure, science, and fantasy from a master storyteller far ahead of his time. In *Twenty Thousand Leagues Under the Sea*, a monster wreaks havoc in the waters of the Atlantic Ocean. The US government sends a French marine biologist, his servant, and a Canadian harpoonist to take care of the problem. But instead of a mythic beast, the team finds the submarine *Nautilus* and its fearsome helmsman, Captain Nemo. *Around the World in Eighty Days* follows Phileas Fogg and his eccentric manservant Passepartout on an epic quest to circumnavigate the globe. Pursued by a Scotland Yard detective, derailed by a herd of bison, and attacked by Sioux Indians, the travelers use every mode of transportation possible to race from one exotic exploit to the next. From the sands of Egypt to the icy waters of the Pacific, Fogg and Passepartout never lose sight of their goal, even when they stop to rescue a beautiful damsel in distress. *Journey to the Center of the Earth* is a cornerstone of science fiction and one of the greatest stories ever told. A dirty slip of parchment paper falls from the pages of an ancient manuscript. Deciphered by the indefatigable Otto Lidenbrock, professor of geology, and his reluctant nephew Axel, the parchment's coded message asserts that a volcano in Iceland contains a passageway to the center of the earth. Two days later, the adventurers embark on a journey so fantastic it will alter the very meaning of history. In *The Mysterious Island*, a hot air balloon hijacked by captured Union army soldiers is blown far, far away from its point of departure in Richmond, Virginia. When the craft crash lands on an island in the South Pacific, the prisoners must contend with wild animals, pirates, and an active volcano in a fight for their very survival. This ebook has been professionally proofread to ensure accuracy and readability on all devices. **The Best of the Equinox, Dramatic Ritual, Volume II** Aleister Crowley, 2013-02-01 Volume II of *The Best of the Equinox* by Aleister Crowley offers a treasure chest of dramatic rituals. *The Equinox* became the standard for English language esotericism in the early 20th century, aptly termed the *Encyclopedia of Initiation* by its principal editor and contributor Aleister Crowley. This ten-volume collection had remarkable variety, depth, and the utility of its contents, encompassing Qabalah, tarot, yoga, and the essential papers of Crowley's teaching order, A.A. Unfortunately, much of this material is currently out of print. *The Best of the Equinox, Volume II* curated by scholar and U.S. Deputy Grandmaster General of the O

T O Lon Milo DuQuette collects the best of Crowley s material from both in print and out of print editions of The Equinox For Crowley collectors and the curious alike this is an accessible affordable volume packed with high magick and secrets
