## **Sports Training Advanced:**

*Principles and Basics of Advanced Athletic Training* Vladimir Issurin, Michael Yessis, Ultimate Athlete Concepts, 2008

*Advanced Strength and Conditioning* Anthony Turner, Paul Comfort, 2017-10-25 Becoming an effective strength and conditioning practitioner requires the development of a professional skills set and a thorough understanding of the scientific basis of best practice. Aimed at advanced students and beginning practitioners, this book explores the latest scientific evidence and applies it to exercise selection and programming choices across the full range of functional areas in strength and conditioning, from strength and power to speed and agility. With coverage of data analysis and performance feedback, both vital skills for the contemporary strength and conditioning coach, this concise but sophisticated textbook is the perfect bridge from introductory study to effective professional practice. Written by experts with experience in a wide variety of sports, its chapters are enhanced by extensive illustrations and address key topics such as fitness testing and data analysis, developing strength and power, motor skill acquisition and development, strategies for competition, priming, monitoring, training load, fatigue and recovery. *Advanced Strength and Conditioning: An Evidence-based Approach* is a valuable resource for all advanced students and practitioners of strength and conditioning and fitness training.

*Advanced Sports Conditioning for Enhanced Performance* IDEA Health & Fitness, 2002

*ACSM's Resources for the Personal Trainer* American College of Sports Medicine, 2013-03-22 ACSM's Resources for the Personal Trainer provides a broad introduction to the field of personal training, covering both basic science topics and practical application. It was originally designed to help people prepare for the ACSM Personal Training Certification Exam. It continues to serve that function, but the market for it has expanded to practitioners in the field looking for an additional resource, as well as in an academic setting where the book is a core text for personal training programs.

**DS Performance Strength & Conditioning Training Program for American Football, Power, Advanced** D. F. J. Smith, 2016-12-02 A 12-week strength program is why we have designed our programmes to support all positions and areas of the game to develop the key physical attributes for American Football. Covering the essential physical aspects to American Football is just as important as putting the time in on the field. Choose your current training level: Amateur, Intermediate, and Advanced, for the variable you would like to train and progress your way up to Advanced to really improve your performance. The three levels: Amateur, Intermediate, and Advanced, represent more your current training age, experience, and skill level. Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport, DS Performance training programmes are written to run alongside a skill sport-specific based training plan. DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport-specific training sessions. DS Performance has selected five of the most important physical performance variables/attributes for each of the sports that are essential in developing your performance. DS Performance strength conditioning training programmes have been written for 20 of the

most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning *Catalogue University of Wisconsin, 1928* Some nos include Announcement of courses

**Sports Kinanthropometry: An Approach To Enhancing Sports Performance** Dr.Sanjay Kumar Prajapati, Dr.Sanjeev S.Patil, Kinanthropometry as an approach to enhancing sports performance is the scientific study of human body size shape composition and proportions in relation to movement and athletic ability By measuring variables such as height limb length girths skinfold thickness and body composition kinanthropometry helps identify an athlete s physical suitability for specific sports informs talent identification and guides the design of training programs tailored to individual body types Different sports favor different body types e g tall and long limbed for basketball lean for endurance running Guides development of personalized training programs aligned with an athlete s physical attributes Tracks changes in body composition proportions and physical growth to optimize performance Ensures techniques training and equipment are suited to an athlete s body Focuses on athlete centered assessment rather than reducing athletes to mere numbers

**Ds Performance Strength & Conditioning Training Program for American Football, Speed, Advanced** D. F. J. Smith, 2016-12-02 A 12 week strength this is why we have designed our programmes to support all positions and areas of the game to develop the key physical attributes for American Football Covering the essential physical aspects to American Football is just as important as putting the time in on the field Choose your current training level Amateur Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance The three levels Amateur Intermediate and Advanced represents more your current training age experience and skill level Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport DS Performance training programmes are written to run alongside a skill sport specific based training plan DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions DS Performance has selected five of the most important physical performance variables attributes for each of the sports that are essential in developing your performance DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the

primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning

**Ds Performance Strength & Conditioning Training Program for Football, Agility, Advanced** D. F. J. Smith, 2016-12-02 A 12 week strength conditioning training program for Football focusing on agility conditioning for an advanced level DS Performance have created an exclusive series of sport specific strength conditioning training programmes that have underpinning evidence based training methods which have been put in place to improve your performance for all ages and abilities All programmes have been designed to develop each specific performance variable through the progression of intensity and volume Along with your training program this book contains a supporting guide to mobility training This guide uses myofascial release static stretching and activation work to mobilise the major body parts used in training It has been put in place to increase your mobility it can also be used to support your warm ups and cool downs To aid your training we also included a series of tables to create your lifting percentages These tables will help you work out your working percentages from 40% 95% The tables are broken down into 5% loads all in kilograms ranging from 10kg 300kg All programmes by DS Performance are 12 weeks in duration we recommend that you do two six week training blocks with a de loading week between the two training blocks This will allow the body to recover prepare you for the second training phase and reduce any risk of injury Football like so many of the team sports is a multi directional explosive sport where a players ability to perform skills at a multi pace ever changing environment is essential So speed strength acceleration agility and sheer power are all very important performance variables to develop in the modern game This is why our programmes have been designed to develop the key physical attributes for Football Covering the essential physical aspects to Football is just as important as putting the time in on the pitch Choose your current training level Amateur Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance The three levels Amateur Intermediate and Advanced represents more your current training age experience and skill level Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport DS Performance training programmes are written to run alongside a skill sport specific based training plan DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions DS Performance has selected five of the most important physical performance variables attributes for each of the sports that are

essential in developing your performance DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning Sport Training Individualization Alexander P. Isaev, Vadim V. Erlikh, Vladimir V. Rybakov, 2017 This book covers the essence of sports training new concepts and technologies the prerequisites and scope of an individualised approach to training as well as how to integrate the main methodological paradigms of sports training systems using the theory of adaptation Modernisation and analysis of a body's potential plus features of efficient adaptation make it possible to adjust training loads and to ensure excellent sporting performances particularly with the help of artificially controlled training environments This book suggests the use of modern training methods in endurance sports For example it shows the benefits of focused application of exercises in developing local and regional muscular endurance and provides recommendations on training for important competitions It also describes the peculiarities of short term reactions and the long term adaptation of athletes to the techniques mentioned and to a higher level of performance **DS Performance Strength & Conditioning Training Program for Football, Strength, Advanced** D. F. J. Smith, 2016-12-02 A 12 week strength conditioning training program for Football focusing on strength development for an advanced level DS Performance have created an exclusive series of sport specific strength conditioning training programmes that have underpinning evidence based training methods which have been put in place to improve your performance for all ages and abilities All programmes have been designed to develop each specific performance variable through the progression of intensity and volume Along with your training program this book contains a supporting guide to mobility training This guide uses myofascial release static stretching and activation work to mobilise the major body parts used in training It has been put in place to increase your mobility it can also be used to support your warm ups and cool downs To aid your training we also included a series of tables to create your lifting percentages These tables will help you work out your working percentages from 40% 95% The tables are broken down into 5% loads all in kilograms ranging from 10kg 300kg All programmes by DS Performance are 12 weeks in duration we recommend that you do two six week training blocks with a de loading week between the two training blocks This will allow the body to recover prepare you for the second training phase and reduce any risk of injury Football like so many of the team sports is a multi directional

explosive sport where a players ability to perform skills at a multi pace ever changing environment is essential So speed strength acceleration agility and sheer power are all very important performance variables to develop in the modern game This is why our programmes have been designed to develop the key physical attributes for Football Covering the essential physical aspects to Football is just as important as putting the time in on the pitch Choose your current training level Amateur Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance The three levels Amateur Intermediate and Advanced represents more your current training age experience and skill level Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport DS Performance training programmes are written to run alongside a skill sport specific based training plan DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions DS Performance has selected five of the most important physical performance variables attributes for each of the sports that are essential in developing your performance DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning

*Ds Performance Strength & Conditioning Training Program for Football, Speed, Advanced*

D. F. J. Smith, 2016-12-02 A 12 week strength conditioning training program for Football focusing on speed development for an advanced level DS Performance have created an exclusive series of sport specific strength conditioning training programmes that have underpinning evidence based training methods which have been put in place to improve your performance for all ages and abilities All programmes have been designed to develop each specific performance variable through the progression of intensity and volume Along with your training program this book contains a supporting guide to mobility training This guide uses myofascial release static stretching and activation work to mobilise the major body parts used in training It has been put in place to increase your mobility it can also be used to support your warm ups and cool downs To aid your training we also included a series of tables to create your lifting percentages These tables will help you work out your working percentages from 40% 95% The tables are broken down into 5% loads all in kilograms ranging from 10kg 300kg All programmes by DS Performance are 12 weeks in duration we recommend that you do two six week training

blocks with a de loading week between the two training blocks This will allow the body to recover prepare you for the second training phase and reduce any risk of injury Football like so many of the team sports is a multi directional explosive sport where a players ability to perform skills at a multi pace ever changing environment is essential So speed strength acceleration agility and sheer power are all very important performance variables to develop in the modern game This is why our programmes have been designed to develop the key physical attributes for Football Covering the essential physical aspects to Football is just as important as putting the time in on the pitch Choose your current training level Amateur Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance The three levels Amateur Intermediate and Advanced represents more your current training age experience and skill level Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport DS Performance training programmes are written to run alongside a skill sport specific based training plan DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions DS Performance has selected five of the most important physical performance variables attributes for each of the sports that are essential in developing your performance DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning

Ds Performance Strength & Conditioning Training Program for Football, Power, Advanced

D. F. J. Smith, 2016-12-02 A 12 week strength conditioning training program for Football focusing on power development for an advanced level DS Performance have created an exclusive series of sport specific strength conditioning training programmes that have underpinning evidence based training methods which have been put in place to improve your performance for all ages and abilities All programmes have been designed to develop each specific performance variable through the progression of intensity and volume Along with your training program this book contains a supporting guide to mobility training This guide uses myofascial release static stretching and activation work to mobilise the major body parts used in training It has been put in place to increase your mobility it can also be used to support your warm ups and cool downs To aid your training we also included a series of tables to create your lifting percentages These tables will help you

work out your working percentages from 40% 95% The tables are broken down into 5% loads all in kilograms ranging from 10kg 300kg All programmes by DS Performance are 12 weeks in duration we recommend that you do two six week training blocks with a de loading week between the two training blocks This will allow the body to recover prepare you for the second training phase and reduce any risk of injury Football like so many of the team sports is a multi directional explosive sport where a players ability to perform skills at a multi pace ever changing environment is essential So speed strength acceleration agility and sheer power are all very important performance variables to develop in the modern game This is why our programmes have been designed to develop the key physical attributes for Football Covering the essential physical aspects to Football is just as important as putting the time in on the pitch Choose your current training level Amateur Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance The three levels Amateur Intermediate and Advanced represents more your current training age experience and skill level Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport DS Performance training programmes are written to run alongside a skill sport specific based training plan DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions DS Performance has selected five of the most important physical performance variables attributes for each of the sports that are essential in developing your performance DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning

*Ds Performance Strength & Conditioning Training Program for Baseball, Speed, Advanced*

D. F. J. Smith, 2016-12-02 A 12 week strength conditioning training program for Baseball focusing on speed development for an advanced level DS Performance have created an exclusive series of sport specific strength conditioning training programmes that have underpinning evidence based training methods which have been put in place to improve your performance for all ages and abilities All programmes have been designed to develop each specific performance variable through the progression of intensity and volume Along with your training program this book contains a supporting guide to mobility training This guide uses myofascial release static stretching and activation work to mobilise the major body parts

used in training It has been put in place to increase your mobility it can also be used to support your warm ups and cool downs To aid your training we also included a series of tables to create your lifting percentages These tables will help you work out your working percentages from 40% 95% The tables are broken down into 5% loads all in kilograms ranging from 10kg 300kg All programmes by DS Performance are 12 weeks in duration we recommend that you do two six week training blocks with a de loading week between the two training blocks This will allow the body to recover prepare you for the second training phase and reduce any risk of injury Baseball players alongside the core skills required to being successful in the game also require very specific physical attributes As the game is made up of very fast powerful plays the players need to be able to produce great power in many planes of movement This is why our programmes have been designed to develop the key physical attributes for Baseball Covering the essential physical aspects to Baseball is just as important as putting the time in on the pitch Choose your current training level Amateur Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance The three levels Amateur Intermediate and Advanced represents more your current training age experience and skill level Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport DS Performance training programmes are written to run alongside a skill sport specific based training plan DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions DS Performance has selected five of the most important physical performance variables attributes for each of the sports that are essential in developing your performance DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning

**Ds Performance Strength & Conditioning Training Program for Basketball, Speed, Advanced** D. F. J. Smith, 2016-12-02 A 12 week strength conditioning training program for Basketball focusing on speed development for an advanced level DS Performance have created an exclusive series of sport specific strength conditioning training programmes that have underpinning evidence based training methods which have been put in place to improve your performance for all ages and abilities All programmes have been designed to develop each specific performance variable through the progression of intensity and volume Along

with your training program this book contains a supporting guide to mobility training This guide uses myofascial release static stretching and activation work to mobilise the major body parts used in training It has been put in place to increase your mobility it can also be used to support your warm ups and cool downs To aid your training we also included a series of tables to create your lifting percentages These tables will help you work out your working percentages from 40% 95% The tables are broken down into 5% loads all in kilograms ranging from 10kg 300kg All programmes by DS Performance are 12 weeks in duration we recommend that you do two six week training blocks with a de loading week between the two training blocks This will allow the body to recover prepare you for the second training phase and reduce any risk of injury While in Basketball no two players are exactly alike in size shape or skill level players must always improve their on court performance by developing key physical attributes Because becoming a great basketball player is so much more than just refining the skills that are on display on the court they need to develop speed power agility and strength for improved performance This is why our programmes have been designed to develop the key physical attributes for Basketball Covering the essential physical aspects to Basketball is just as important as putting the time in on the court Choose your current training level Amateur Intermediate and Advanced for the variable you would like to train and progress your way up to Advanced to really improve your performance The three levels Amateur Intermediate and Advanced represents more your current training age experience and skill level Because weight training and other training methods have a completely different set of skills required when lifting and training correctly compared to your sport DS Performance training programmes are written to run alongside a skill sport specific based training plan DS Performance programmes provide sessions for 3 days of training a week to alternate between your skill sport specific training sessions DS Performance has selected five of the most important physical performance variables attributes for each of the sports that are essential in developing your performance DS Performance strength conditioning training programmes have been written for 20 of the most popular sports globally the sports selected have a wide range of physical attributes and together we have targeted the primary performance variables to develop them for increases in your personal performance DS Performance has been developed to bring elite training methods to everyone from all levels of sporting ability The mission of DS Performance is to make training programmes utilised by professional athletes available to all sporting enthusiasts and performers DS Performance are providing you with training programmes designed by ex Team GB athletes and coaching staff that have the practical and applied experience through a wide range of individual and team based sports Combined with the vast experience an International athlete has on training and peak performance who also are qualified to a minimum of Post Graduate level in the form of Masters Degrees in Sport Science Strength Conditioning

## **Sports Training Advanced Introduction**

In today's digital age, the availability of Sports Training Advanced books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Sports Training Advanced books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Sports Training Advanced books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Sports Training Advanced versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Sports Training Advanced books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Sports Training Advanced books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Sports Training Advanced books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Sports Training Advanced books and manuals for download have transformed the way we access

information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Sports Training Advanced books and manuals for download and embark on your journey of knowledge?

### **FAQs About Sports Training Advanced Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Sports Training Advanced is one of the best book in our library for free trial. We provide copy of Sports Training Advanced in digital format, so the resources that you find are reliable.
