The word "Commitment" is written in a bold, black, sans-serif font across the blue area. The lighting is warm, casting soft shadows and highlighting the rough edges of the cardboard.

This Life Martin Hägglund, 2020-02-04 Winner of the Ren Wellek Prize Named a Best Book of the Year by The Guardian The Millions and The Sydney Morning Herald This Life offers a profoundly inspiring basis for transforming our lives demonstrating that our commitment to freedom and democracy should lead us beyond both religion and capitalism Philosopher Martin Hägglund argues that we need to cultivate not a religious faith in eternity but a secular faith devoted to our finite life together He shows that all spiritual questions of freedom are inseparable from economic and material conditions what matters is how we treat one another in this life and what we do with our time Engaging with great philosophers from Aristotle to Hegel and Marx literary writers from Dante to Proust and Knausgaard political economists from Mill to Keynes and Hayek and religious thinkers from Augustine to Kierkegaard and Martin Luther King Jr Hägglund points the way to an emancipated life

Shared and Institutional Agency Michael Bratman, 2022 Our human lives involve remarkable forms of practical organization diachronic organization of individual activity small scale organization of shared action and the organization of institutions In this book Michael Bratman argues that the key to these multiple inter related forms of human practical organization is our capacity for planning agency Drawing on earlier work on the roles of planning agency in our human cross temporal and small scale social organization it focuses on the role of planning agency within our organized institutions whether a religious congregation a small business a professional association a city council a university a non profit organization a corporation a political party a legal system or a democratic state Shared and Institutional Agency draws on ideas inspired by H L A Hart that our organized institutions are rule guided and that to understand this we need a theory of social rules This book develops a planning theory of social rules and puts forth an organized institution as involving authority according social rules of procedure This supports a model of organized institutions that makes room for pluralistic divergence and leads to a model of institutional intention and institutional intentional agency The view that emerges sees our capacity for planning agency as a core capacity that underlies not only string quartets and informal social rules but also the rule guided structure of organized institutions and institutional agency
