## Man Of Earth 243:

The Last Man on Earth Tracy Anne Warren,2014-01-07 A truly satisfying romance The New York Times Book Review From New York Times bestselling author Tracy Anne Warren comes a sexy and romantic new contemporary series about corporate combat in the boardroom and under the covers passion in the bedroom Idealistic good girl Madelyn Grayson believes in doing what's right Even as a high powered executive in the mad world of advertising she doesn't cut corners making her ad campaigns sizzle without having to burn anyone along the way Rival exec Zack Douglas never wastes an opportunity to land the next big deal especially when it benefits him A bad boy with a reputation to match he has no qualms about doing whatever it takes to get ahead no matter who gets in the way When a hot promotion pops up at their company both Zack and Madelyn wind up on the short list for the position But as the two square off they discover that being heated rivals in the office makes for scorching bed play behind closed doors Will Madelyn's steamy secret affair with Mr Vice make her compromise her ideals or worse lose her heart FIRST IN A NEW SERIES    **A Man From Planet Earth** Giancarlo Genta,2015-08-26 Sometime in the not too distant future unbeknownst to Earth the Galaxy is home to a number of spacefaring societies This confederation enforces a strict protocol forbidding any contact with civilizations that have not yet achieved both a substantial spacefaring capability and sufficient maturity to control the technology explosion before triggering their own extinction While this policy is intended to only bring in peaceful new members matters change entirely when the confederation is threatened by some unknown entity is the menace real or imagined The confederation decides to break with the rules and sends a delegate to Earth to hire one of the supposedly belligerent Earthlings to investigate and to revive the confederation's long unused starfleet The Earthman agrees but demands a high price should he succeed the confederation will have to accept Earth as a new member As the threat becomes ever more acute the question soon becomes which mission will prove harder saving the confederation or convincing it to accept the deal The extensive appendix written in non technical language reviews the scientific and technological topics underlying the plot ranging from the Fermi paradox space travel and artificial collective intelligence to theories on possible universal convergences in technological and biological development    Man of Earth Gémino H.
