## **Management Knowledge A Critical View:**

*Management Knowledge* Paul Griseri, 2017-04-17 This book fills the gap for a text which presents a theoretically based critique of management knowledge but in an accessible form which is relevant to MBA students and practitioners alike. Students have to learn and digest accepted management knowledge and practitioners look to gurus as a source of management knowledge without any appreciation of how secure these ideas may be. This book will therefore be relevant to both students and practitioners in questioning how far management research actually leads to genuine knowledge of organizations.

**The Politics of Management Knowledge in Times of Austerity** Ewan Ferlie, Sue Dopson, Chris Bennett, Michael Fischer, Jean Ledger, Gerry McGivern, 2018-10-25 While the implementation of evidence based medicine guidelines is well studied there has been little investigation into the extent to which a parallel evidence based management movement has been influential within health care organizations. This book explores the various management knowledges and associated texts apparent in English health care organizations and considers how the local reception of these texts was influenced by the macro level political economy of public services reform evident during the period of the politics of austerity. The research outlined in this volume shows that very few evidence based management texts are apparent within health care organizations despite the influence of certain knowledge producers such as national agencies, think tanks, management consultancies and business schools in the industry. Bringing together the often disconnected academic literature on management knowledge and public policy the volume addresses the ways in which preferred management knowledges and texts in these publicly funded settings are sensitive to the macro level political economy of public services reform offering an empirically grounded critique of the evidence based management movement.

**The Foundations of Management Knowledge** Paul Jeffcutt, 2008-01-28 This volume brings together a group of leading academics from Europe, North America and Australasia to address the nature and management knowledge in relation to rapidly changing arenas of theory and practice.

Expert authors reflect on core principles to suggest innovative strategies for CME educators across the globe.
