## **Management Of Aid Agencies:**

**The Management of Aid Agencies** George Cunningham, 1974 Publisher's description While the trial of Hitler's fallen elite at Nuremberg has been thoroughly documented the interval between the Nazis capture in May and June 1945 and the start of the actual trial in late November has until now remained shrouded in shadow With Interrogations acclaimed historian Richard Overy opens a new window into the Third Reich providing an intimate glimpse of the savage dictatorship in its death throes More than thirty transcripts of the interrogations are reproduced here for the first time allowing us to hear the voices of the newly captured Hitler gang Including G ing Speer and Hess as they squirmed under the Allies glare Interrogations is the stark and disturbing history of defeat it lays bare as never before the human weaknesses that made the Third Reich possible Navigation by Judgment Dan Honig, 2018-03-29 Foreign aid organizations collectively spend hundreds of billions of dollars annually with mixed results Part of the problem in these endeavors lies in their execution In Navigation by Judgment Dan Honig argues that high quality implementation of foreign aid programs often requires contextual information that cannot be seen by those in distant headquarters Drawing on a novel database of over 14 000 discrete development projects across nine aid agencies and eight paired case studies of development projects Honig shows that aid agencies will often benefit from giving field agents the authority to use their own judgments to guide aid delivery This navigation by judgment is particularly valuable when environments are unpredictable and when accomplishing an aid program's goals is hard to accurately measure Highlighting a crucial obstacle for effective global aid Navigation by Judgment shows that the management of aid projects matters for aid effectiveness **Aid in Danger** Larissa Fast, 2014-05-14 Humanitarian aid workers increasingly remain present in contexts of violence and are injured kidnapped and killed as a result Since 9 11 and in response to these dangers aid organizations have fortified themselves to shield their staff and programs from outside threats In Aid in Danger Larissa Fast critically examines the causes of violence against aid workers and the consequences of the approaches aid agencies use to protect themselves from attack Based on more than a decade of research Aid in Danger explores the assumptions underpinning existing explanations of and responses to violence against aid workers According to Fast most explanations of attacks locate the causes externally and maintain an image of aid workers as an exceptional category of civilians The resulting approaches to security rely on separation and fortification and alienate aid workers from those in need representing both a symptom and a cause of crisis in the humanitarian system Missing from most analyses are the internal vulnerabilities exemplified in the everyday decisions and ordinary human frailties and organizational mistakes that sometimes contribute to the conditions leading to violence This oversight contributes to the normalization of danger in aid work and undermines the humanitarian ethos As an alternative Fast proposes a relational framework that captures both external threats and internal vulnerabilities By uncovering overlooked causes of violence Aid in Danger offers a unique perspective on the challenges of providing aid in perilous settings and on the prospects of reforming the system in service of
