Water is a scarce resource in South Africa. The graph below shows how the volume of water in a toilet cistern has been reduced over the years. The picture next to the graph shows a toilet pan with a toilet cistern.

NOTE: 1 gallon = 3,785 litres

Use the information above to answer the questions that follow.

3.2.1 Calculate (in litres) the volume of water used during February 2022 by a family of five, if each person flushed the toilet an average FOUR times a day during the month. (3)

3.2.2 State ONE way in which a person can save water in this context. (2)

This collection contains all my published papers both research and expository that were published from 1934 to 1988 The
research papers arranged in chronological order appear in Volume I and II and in the first part of Volume III The expository
papers which are mainly reports presented at conferences appear in chronological order in the last part of Volume III Volume
I covers the period 1910 to 1947 the year I moved to Yale Volume II covers the period 1947 to 1965 when I became Chairman
of the Department at Yale and Volume III covers the period from 1965 to 1989 which goes beyond my assumption of an
emeritus status in 1981 I have divided the time interval covered in each volume into subintervals preceded by an account of
my personal history during this period and a commentary on the research papers published in the period I have omitted
commentaries on the expository papers and have sorted out the commentaries on the research papers according to the
principal fields of my research my recollections checked against written The personal history has been based on
documentation in my file of letters as well as diaries One of these was a diary I kept of my trip to the USSR in 1961 the others
