

# The 9 Problem Solving Strategies

**1** Look for the important words in the question  
Write them down.  
Underline them.  
Make sure I know what to do.

**2** Look for a pattern  
Can I see something happening over and over again?  
Will this help me solve the problem?

**3** Have a go  
Try an answer.  
Does the answer make sense?

**4** Use a table or a chart  
Will something like this help?

**5** Use a drawing  
Can I draw something about the problem?  
Will this help me to find the answer?

**6** Work backwards  
Can I start at the end of the question to help work it out?  
Will my answer work?

**7** Try an easier problem  
Can I change the numbers in the question to make it simpler?  
Will this make finding the answer easier?

**8** Make a model  
Can I use paper or blocks to help me find the answer?  
Can I use people to help me find the answer?

**9** Think logically  
Can I tell something about the answer straight away?  
Can I get rid of answers that are not correct?
