Adler, 2008-04-21 An exploration of medical discoveries from the ancient Greeks to the present Always help or at least do no harm Following this simple yet revolutionary idea Hippocrates laid the foundation for modern medicine over two millennia ago From the Hippocratic Oath to the human genome from Pasteur's germ theory to the worldwide eradication of smallpox Medical Firsts brings to life 2 500 years of medical advances and discoveries Organized chronologically the book describes each milestone in a vivid capsule history making it a fascinating and wonderfully readable resource for anyone interested in medicine's past progress and future promise Robert E Adler PhD Santa Rosa CA has worked as a psychologist and science journalist He writes about a wide variety of scientific and medical topics for New Scientist Nature and other publications and is the author of Science Firsts 0 471 40174 9      The Palgrave Handbook of Infertility in History Gayle Davis, Tracey Loughran, 2017-09-01 This ground breaking interdisciplinary volume provides an overdue assessment of how infertility has been understood treated and experienced in different times and places It brings together scholars from disciplines including history literature psychology philosophy and the social sciences to create the first large scale review of recent research on the history of infertility Through exploring an unparalleled range of chronological periods and geographical regions it develops historical perspectives on an apparently transhistorical experience It shows how experiences of infertility access to treatment and medical perspectives on this condition have been mediated by social political and cultural discourses The handbook reflects on and interrogates different approaches to the history of infertility including the potential of cross disciplinary perspectives and the uses of different kinds of historical source material and includes lists of research resources

to aid teachers and researchers It is an essential go to point for anyone interested in infertility and its history Chapter 19 is open access under a CC BY 4.0 license via link [springer.com](https://www.springer.com)     [A Matter of Life](#) Robert Geoffrey Edwards, Patrick Christopher Steptoe, 1980     [A Short History of Medical Ethics](#) Albert R.
