Other Mother:

The Other Mother Nancy Abrams, 1999-09-10 On a spring day in 1993 Nancy Abrams helped her daughter dress for day care packed her lunch and said good bye Next she drove to court where she learned that in the eyes of the law she was nothing more than a biological stranger to the child she helped bring into the world and raise That was the last time she would see her daughter or hear her voice for five years The Other Mother begins as Abrams and her female lover decide to start a family together With giddy anticipation they search for a sperm donor shop for baby clothes and crib and attend childbirth classes But despite their high hopes the relationship begins to fall apart and they separate when their daughter is a toddler Problems between the two intensify until shortly before her daughter's fifth birthday Abrams loses custody In unprecedented depth Abrams's compelling narrative examines the social legal and political implications of gay and lesbian parenting Her haunting memoir asks the question What makes a mother It is a question that biological parents co parents adoptive parents step parents and divorced parents must each answer in their own way In telling one woman's story The Other Mother makes a solid case for legal protections including marriage for lesbian and gay families

Children's Literature and Intergenerational Relationships Justyna Deszcz-Tryhubczak, Irena Barbara Kalla, 2021-04-23 Children's Literature and Intergenerational Relationships Encounters of the Playful Kind explores ways in which children's literature becomes the object and catalyst of play that brings younger and older generations closer to one another Providing examples from diverse cultural and historical contexts this collection argues that children's texts promote intergenerational play through the use of literary devices and graphic formats and that they may prompt joint play practices in the real world The book offers a distinctive contribution to children's literature scholarship by shifting critical attention away from the difference and conflict between children and adults to the exploration of inter age interdependencies as equally crucial aspects of human life presenting a new perspective for all who research and work with children's culture in times of global aging

Fixing Gender Natasha Distiller, 2011-04-01 Fixing Gender uses psychoanalysis to explore the theoretical implications for the gendering of the human subject that arise from the situation of lesbians raising children from birth In the face of the powerful evidence of the ways gender operates and in the deep structural ways the logic of gender perpetuates both made visible by psychoanalysis this book asks Is gender always fixed Can the system which is produced by and which produces gender be altered Can gender be fixed The work begins by sketching the implications of gender as elucidated by feminist thinkers in general and feminist psychoanalytic thinkers in particular Moving to Freud's theory of the subject the work examines the logic of the Oedipus complex and from there it looks at what feminist object relations theorists have done with and to the logic of the Oedipus complex The book then moves to the literature on lesbian family functioning and finally the work ends with a radical interrogation into the possibilities enabled by paying attention to form and highlighting its constitutive possibilities
