## THE OTHER SIDE OF DECEPTION

### *On infiltrating Jordanian intelligence . . .*

"My controller made it clear Elements in the Mossad had decided that it was time to destabilize Jordan to the point of civil war. . . . [The right-wingers would do it through] a high influx of counterfeit currency . . . arming religious fundamentalists and assassinating leading figures who were symbols of stability. My mission was to turn the Jordanians. As an ex-Mossad man, I feared I was setting myself up for a hanging [even so, I took the next step]."

### *On illegal human experimentation . . .*

"During that time prisoners were taken to a holding facility in Nes Szyona. . . . [Later, I was told what really went on at the facility.] . . . It was an ABC (atomic, biological, chemical) warfare laboratory. It was where our top epidemiological scientists were developing various deadly machines. . . . [The Palestinians were used as] guinea pigs. . . . The scientists could make sure the weapons they were developing worked . . . and make them more efficient."

### *On the planned assassination of George Bush . . .*

"In an effort to bring the right-wing government of Israel to the negotiating table, Bush had put a freeze on all loan guarantees. . . . Upon making that decision, he was regarded as the greatest enemy of the state of Israel. . . . A certain right-wing elite in the Mossad picked the Madrid peace talks as its staging ground. . . . These Palestinian extremists were taken by a Kibon unit from their hiding place in Beirut. . . . [My controller] called me on Tuesday, October 1. They're out to kill Bush," he said."

## Other Side Of Deception:

The Other Side of Deception Victor Ostrovsky, 1995-06-01 Former Mossad agent Victor Ostrovsky reveals such alarming cover up stories as the near assassination of George Bush and the truth behind Robert Maxwell's death By the author of *By Way of Deception* Reprint      **Other Side of Deception** Victor Ostrovsky,      The Other Side of Death Carlyle Boynton Haynes, 1918      *Blood and Ruins* Richard Overy, 2023-04-04 Monumental A vast and detailed study that is surely the finest single volume history of World War II Richard Overy has given us a powerful reminder of the horror of war and the threat posed by dictators with dreams of empire The Wall Street Journal A thought provoking and original reassessment of World War II from Britain's leading military historian A New York Times bestseller Richard Overy sets out in *Blood and Ruins* to recast the way in which we view the Second World War and its origins and aftermath As one of Britain's most decorated and respected World War II historians he argues that this was the last imperial war with almost a century long lead up of global imperial expansion which reached its peak in the territorial ambitions of Italy Germany and Japan in the 1930s and early 1940s before descending into the largest and costliest war in human history and the end after 1945 of all territorial empires Overy also argues for a more global perspective on the war one that looks broader than the typical focus on military conflict between the Allied and Axis states Above all Overy explains the bitter cost for those involved in fighting and the exceptional level of crime and atrocity that marked the war and its protracted aftermath which extended far beyond 1945 *Blood and Ruins* is a masterpiece a new and definitive look at the ultimate struggle over the future of the global order which will compel us to view the war in novel and unfamiliar ways Thought provoking original and challenging *Blood and Ruins* sets out to understand the war anew      **Report of the ... responses always reflect badly on the official side and that terrorists are not constrained by their own doctrines The new terrorists are dramatically more ideological murderous and suicidal They are generally less reconcilable less trusting of official negotiators less likely to release detainees and more likely to kill detainees They are less likely to demand ransoms yet more likely to release hostages in cases in which they do demand ransom They are more informed about the official side s policies tactics techniques and procedures They are more likely to use new information and communication technologies against responding agencies and officials They are more capable fighters they kill more people despite deploying fewer fighters per hostage Most disturbing is the fact that they take advantage of free er societies to access easier targets Features Includes evidence based definitions and descriptions of political religious Jihadi and new terrorism Presents the first large n comparison of old and new terrorism using an original extension of the Global Terrorism Database GTD with added codes for each of 10 735 hostage crises and more than 500 000 data points from 1970 through 2016 Details a further extension of the GTD covering all terrorist events from 2004 through 2016 roughly 5 million data points Offers prescriptive advice and visual decision trees on how to negotiate crises assess the risk of terrorism and how and when to assault terrorists Reviews official practices interviews with experienced officials and real world simulations of recent terrorist events and attacks Countering New est Terrorism will be of interest to researchers students enrolled in terrorism and Homeland Security programs crisis negotiators and police security intelligence and military authorities tasked with counterterrorism and anti terrorism efforts
