Managing Public Lands as a Common Property Resource Devendra Prasad Chapagain, 1984 Mastering property management. A practical guide and training program for HOA and property managers Sergei Dedenev, 2024-12-05 This comprehensive guide is a must have for HOAs and property managers The book combines practical tools for managing apartment buildings maximizing profitability and optimizing service fees with a detailed training program for customer service managers Learn to streamline operations boost collections and engage residents effectively Packed with proven strategies and modern tools it s your roadmap to excellence in property management and customer service **Common Property Water Resources** ,2008-01-01 Property rights on water largely a common property resource are very crucial in inducing collective action for management and conservation State support to community action both technical and financial appears to be the prerequisite to affirmative actions in harnessing and managing water resources at the village level in India These are two important messages coming out of this research study It also adds to the evidence that landless labourers and marginal farmers in India depend in a major way on common resources for their traditional livelihood activities and domestic uses A significant revelation is the emerging undercurrent of competition between big and small farmers over the use of such resources and the apparent exclusion of social minorities landless and women in their management The discussions on water markets and the unique state specific case studies reflect that necessity and scarcity induce people to organize themselves for creating greater availability of common water resources and sharing the benefits more equitably Handbook of Environmental Economics Karl-Goran Maler, Jeffrey R. Vincent, 2003-05-20 The Handbook of Environmental Economics focuses on the economics of environmental externalities and environmental public goods Volume I examines environmental degradation and policy responses from a microeconomic institutional standpoint Its perspective is dynamic including a consideration of the dynamics of natural systems and global with attention paid to issues in both rich and poor nations In addition to chapters on well established topics such as the theory and practice of pollution regulation it includes chapters on new areas of environmental economics research related to common property management regimes population and poverty mechanism design political economy of regulation experimental evaluations of policy instruments and technological change

The Management of Common Property Natural Resources Daniel W. Bromley, Michael M. Cernea, 1989 This popular technical paper is currently in its sixth reprinting 10 97 Many development projects require that people be involuntarily resettled to other locations to live and work Governments need adequate policies to minimize the negative effects of this relocation both on the individuals involved and on the national economy This report presents policy guidelines and procedures for World Bank financed projects requiring involuntary resettlement Designed for development specialists social anthropologists and sociologists this volume discusses past Bank projects to illuminate the responsibilities of the

governments and the needs of resettlers and host populations during resettlement Among the topics addressed are types of involuntary resettlement basic sociological principles in approaching resettlement policy objectives and strategies reconstruction of the resettlers homes production bases and social organizations and the effects of resettlement on the environment Annexes to this report contain technical checklists for preparing and appraising resettlement plans in projects and for monitoring and evaluating resettlement Michael M Cernea has published and edited several books on the sociological aspects of development Among these books is *Putting People First Sociological Variables in Rural Development* which describes culturally sensitive approaches to the preparation planning and implementation of development projects Other books include *Social Organization and Development Anthropology Social Assessments for Better Development Case Studies in Russia and Central Asia and Urban Environment and Population Relocation* *Sustainable Watershed Management: Illusion or Reality?* Subha Vishnudas,2006 *Fishery Co-Management* Robert S. Pomeroy,Rebecca Rivera-Guieb,2006 During the last decade there has been a shift in the governance and management of fisheries to a broader approach that recognizes the participation of fishers local stewardship and shared decision making Through this process fishers are empowered to become active members of the management team balancing rights and responsibilities and working in partnership with government This approach is called co management This handbook describes the process of community based co management from its beginning through implementation to turnover to the community It provides ideas methods techniques activities checklists examples questions and indicators for the planning and implementing of a process of community based co management It focuses on small scale fisheries freshwater floodplain estuarine or marine in developing countries but is also relevant to small scale fisheries in developed countries and to the management of other coastal resources such as coral reefs mangroves sea grass and wetlands This handbook will be of significant interest to resource managers practitioners academics and students of small scale fisheries *The Common Property Resource Digest* ,1995 **Property Law and Economics** Boudewijn Bouckaert,2010-01-01 This book contains illuminating and carefully written literature reviews on the central topics of the economics of property rights and institutions As a bonus it includes two fascinating chapters on topics off the beaten path slavery and new types of property rights in environmental goods This book will be indispensable for students and experienced scholars alike Eric Posner University of Chicago Law School US This study covers property law and property rights providing a full summary and comprehensive bibliography of the existing law together with discussion from an economic perspective on the most important aspects of property law Leading experts have brought together their knowledge and insight on a full range of issues including comparative property law and the history of property law to create a truly autonomous interdisciplinary resource This essential reference work will strongly appeal to scholars and students enrolled in academic programmes of law and economics Academic lawyers involved in research and teaching of private common law practicing lawyers in the field of real estate law as well as economists involved in researching

development economics and transition economics will also find this an invaluable resource **Use of Property Rights in Fisheries Management** Ross Shotton,2000-01-01 The session was closed with papers that provided a prognosis on the future development of property rights in fisheries management Thus the conference papers addressed the theory and application of property **Agriculture and the Environment** Ernst Lutz,1998-01-01 Agriculture in developing countries has been remarkably productive during the last few decades however the production levels were achieved at the cost of placing more stress on natural resources and the environment This volume brings together state of the art applied practical research related to agriculture development and the environment in the developing world It attempts to distill current knowledge and to summarize it in readable form for development practitioners Where possible authors use specific examples to indicate which approaches have worked and which have not under which conditions and why **Proceedings of the Conference on Common Property Resource Management** Panel On Common Property Resource Management,1986
