## **Our Hispanic Heritage:**

Our Hispanic Roots Carlos B. Vega,2007-02-01 The Hispanic contribution to the making of the United States has been blatantly glossed over by most historians for the past three hundred years despite the gallant effort of a handful of them who sought to do justice and set the record straight This misrepresentation of the historical facts has rendered a whole nation to become oblivious to its true beginnings and formation crippling its character and jeopardizing its future This book based on established and undisputed historical records is a new attempt to bring out the whole truth to make us realize how this nation really came into being The making of present day United States did not begin in 1607 nor was it confined to thirteen unsettled colonies barely occupying a minute portion of a vast continent We need to set the historical clock back and then forward from 1513 on through well past 1776 and give due credit to Spain and other Hispanic countries such as Mexico for laying down many of the foundations that made us what we are today We need also to be proud of our Hispanic heritage and trumpet it with equal fervor and appreciation as we do it with other less deserving ones It is only then that we would be able to define our character both as a nation and as a people
