Our Knowledge Of Other Selves:

The Nature of Existence: Volume 2 John McTaggart Ellis McTaggart, Ellis McTaggart, 1988-07-29 *Other Selves* Paul Schollmeier, 1994-09-20 This book presents a thorough and systematic integration of Aristotle's analysis of friendship with the main lines of the rest of his work in Politics and Nicomachean Ethics. The author conveys a clear sense of the continuing illumination that Aristotle's analysis of friendship provides to contemporary ethical theorists and to students of Aristotle. *Other Selves* speaks to both audiences. *The Nature of Existence*, 1921 **First, Second, and Other Selves** Jennifer Whiting, 2016-04-26 In her essay collection *First Second and Other Selves: Essays on Friendship and Personal Identity*, well-known scholar of ancient philosophy Jennifer Whiting gathers her previously published essays taking Aristotle's theories on friendship as a springboard to engage with contemporary philosophical work on personal identity and moral psychology. Whiting examines three themes throughout the collection: the first being psychic contingency or the belief that the psychological structures characteristic of human beings may in fact vary not just from one cultural or socio-historical context to another but also from one individual to another. The second theme is the belief that friendship informs an understanding of the nature of the self, an idea that springs from Whiting's uncommon reading of Aristotle's writings on friendship. Specifically, Whiting explains a scenario in which a virtuous agent adopts a kind of impersonal attitude both towards herself and towards her character friends, loving both because they are virtuous. This scenario ties in with an examination of the Aristotelian concept of the ideal friend as an other self or a friendship that evolves from character rather than ego, as well as Whiting's meditation on whether or not a virtuous individual should have a special sort of concern for her own future self, distinct in kind from the concern that she has for others. The third theme is that of rational egoism, a concept that Whiting critiques especially in the context of Aristotle's eudaimonism. The central tenet of the collection is the message that taking ethocentric or character-based attitudes both towards ourselves and towards our friends sheds light on the nature of personal identity and helps to combat ethnocentric and other objectionable forms of bias, a message that is becoming increasingly urgent in light of the recent deaths of Trayvon Martin and Michael Brown. *Indian Philosophy Since Independence* Dale Maurice Riepe, 1979-01-01 This concludes the first volume of *Indian Philosophy Since Independence*; the second volume includes the following chapters: P iv v 1 **Language, Meaning and Persons** Nikunja Vihari Banerjee, 2025-12-01 First published in 1963, *Language, Meaning and Persons* stands as a bold challenge to the declaration that metaphysics has reached its end. In this thought-provoking and profoundly original work, Professor Banerjee argues that philosophy seems to be ending its nomadic career in the desert of linguistic analysis but can still come into its own if it gives up its all-too-long subservience to science, logic, and allied disciplines and returns to man himself. Man is a person with other persons and needs to come back to the truth of what he is. The traditional epistemological categories of imagination, understanding, and reason are analysed in an entirely new and exciting way and shown to be relevant not only to man as a

being in search of knowledge but to men in search of liberation The author's treatment of time and the plan for action is fresh and will provide pungent pabulum for faded philosophical appetites Shrewd and pertinent criticisms of contemporary schools of philosophy also lend support to a bold and new construction in metaphysics This is a book which brings the human situation right into the forefront of philosophical investigation and which is bound to make an impact on the professional philosopher and general reader alike book II. The individual and the society. book III. Man and the universe Hastings Rashdall,1907 Reason, Revelation and Peace Ashok Vohra,2020-01-01 Professor k Satchidananda Murty one of modern India's leading philosophers passed away in his native village of Sangamjagarlamudi in Andhra Pradesh in 2011 after a stellar career during which he advanced knowledge rather than opinion The Indian Philosophical community and especially Ashok Vohra is to be congratulated for producing a dynamic engagement with philosophy I had known Murty for more than twenty years I interacted with him several times When I once asked him where he stood philosophically he was candid enough to say that he Oscillates between Sankar and Ramanuja The essays in this book amply demonstrate that he was a man of many parts but as the allusion to his mystical experiences in his book *The Realm of Between* reveals he was also more than the sum of his parts that while willing to transcend the limits of reason when required Thus revelation and reason characterize not just the title of one of his famous books but in a sense his life and this fact renders this collection uniquely relevant for our times I therefore enthusiastically recommend this book not only to all those interested in the philosophy of Professor Murty or in Indian Philosophy or in philosophy in general but to all those interested in contemporary philosophy in the broadest sense **Agnosticism** Robert Flint,1903 Proceedings of the Aristotelian Society for the Systematic Study of Philosophy ,1921 List of members in each volume **The Theosophical Path** ,1913 The Function of Socialization in Social Evolution Ernest Watson Burgess,1916 *Our Knowledge of Other Selves* Margaret 1925- Chatterjee,2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **An Introduction to Social Psychology** William McDougall,1919 **The Mastery of Nervousness Based Upon Self Reeducation** Robert Sproul Carroll,1917 The Eclectic Magazine of Foreign Literature, Science, and Art ,1891 *Religion and the Mind of Today* Joseph Alexander Leighton,1924 The Science of Self David Wheaton,1889 **Light** ,1919 *A History of Psychology* George Sidney Brett,1921
