**Hermeneutics and Social Science (Routledge Revivals)** Zygmunt Bauman,2010-03-23 Originally published in 1978 this important work by one of the leading European social theorists is arguably the best introduction to the hermeneutic tradition as a whole It is designed to help students of sociology and philosophy place the problems of understanding social science in their historical and philosophical context It does so by presenting the major current in sociological thought as responses to the challenge of hermeneutics The idea that true knowledge of social life can be attained only if human conduct is seen as meaningful action whose meaning is accordingly grasped has been presented as a discovery of recent sociology In fact its history is long and its connections plentiful reaching beyond the boundaries of sociology itself

Yet it is in sociology that the hermeneutic tradition has attracted most interest but most misinterpretation The debate is in full swing and there is no attempt to offer correct solutions the emphasis instead is upon revealing the strengths and weaknesses of each of the main approaches However it is Bauman s view that the theory of understanding may achieve valid results only if it treats the problem of understanding as an aspect of the ongoing process of social life Will You Love God? Iryna Lee Leng,2017-01-05 Will you love God if you realize God has been loving you all along This book tells you how to live a life that is truly life and how to understand Gods love in your life Pet Projects Elizabeth Young,2019-12-17 In Pet Projects Elizabeth Young joins an analysis of the representation of animals in nineteenth century fiction taxidermy and the visual arts with a first person reflection on her own scholarly journey Centering on Margaret Marshall Saunders a Canadian woman writer once famous for her animal novels and incorporating Young s own experience of a beloved animal s illness this study highlights the personal and intellectual stakes of a pet project of cultural criticism Young assembles a broad archive of materials beginning with Saunders s novels and widening outward to include fiction nonfiction photography and taxidermy She coins the term first dog voice to describe the narrative technique of novels such as Saunders s *Beautiful Joe* written in the first person from the perspective of an animal She connects this voice to contemporary political issues revealing how animal fiction such as Saunders s reanimates nineteenth century writing about both feminism and slavery Highlighting the prominence of taxidermy in the late nineteenth century she suggests that Saunders transforms taxidermic techniques in surprising ways that provide new forms of authority for women Young adapts Freud to analyze literary representations of mourning by and for animals and she examines how Canadian writers including Saunders use animals to explore race ethnicity and national identity Her wide ranging investigation incorporates twenty first as well as nineteenth century works of literature and culture including recent art using taxidermy and contemporary film Throughout she reflects on the tools she uses to craft her analyses examining the state of scholarly fields from feminist criticism to animal studies With a lively first person voice that highlights experiences usually concealed in academic studies by scholarly discourse such as detours zigzags roadblocks and personal experience this unique and innovative book will delight animal enthusiasts and academics in the fields of animal studies gender studies American studies and Canadian studies **Dearborn Independent** ,1927
