What is Historicism? Dhankhar Singh, 2018-09-11 Essay aus dem Jahr 2008 im Fachbereich Geschichte Allgemeines Sprache Deutsch Abstract It seems that a definition of history should include all things that have ever happened That definition would include all physical events and occurrences It would also seem that the definition of history would be synonymous with a definition of the past the sum total of all things that have ever happened But Williams points out that the past is not history Things may have happened in the past that were not observed or recorded History is therefore only a subset of the past As a discipline history is a study of the past but it will only reveal a portion of the past and should be done so as objectively as possible There have been many different approaches to the study of history Idealism is the belief that history can be described in terms of ideas what people thought and the intent behind their actions The idealists of the mid to late 1800s cared not only about events but on what those events meant Attaching meaning is not easy and entails problems associated with interpretation if those interpretations are biased or incomplete The problem with this viewpoint is that we can't always know what was intended Idealism can be limiting in accurately portraying events as they really happened Historicism is another approach by which to describe history Its premise is that the autonomy of the past must be respected Each age has its own values and events should be described within the context of those values One of the problems with historicism is that its approach is tantamount to legitimization of events by respecting the values of the time That approach inhibits our ability to fully learn from mistakes of the past Williams stated that some of it has nurtured totalitarianism When meaning takes on a life of its own and affects viewpoints that lead to ideologies that lead to atrocious actions then you have what humanity experienced with Nazi Germany The Meaning of History and Other Historical Pieces Frederic

Excerpt from The Meaning of History Two Lectures Tim following pages contain two lectures recently addressed to a mixed audience in London as an introduction to a course of teaching in History which was subsequently commenced by the writer They are printed nearly as they were spoken at the request and chiefly for the use of those who heard them It will be seen that they belong to the most elementary kind of popular instruction and they will have little interest for the general reader much less for the regular student of history I was led to attempt the course of lectures and afterwards to print these pages by my conviction that the first want of our time is the spread amongst the intelligent body of our people of solid materials to form political and social opinion To stimulate an interest in history seems to me the only means of giving a fresh meaning to popular education and a higher intelligence to popular Opinion I am aware that nearly every sentence in this outline were it not too slight might give room for serious question and possibly for severe criticism But if opposite opinions are not noticed they have still been carefully weighed If I have spoken of many still debated topics almost as though they were decided it is only because in such a plan as this any sort of controversy is out of place not that I forget or slight all that has been urged on the other side But discussion like research must have an end somewhere and the great need now is not to increase but to use our stores of historical learning After all the only real answer to any theory of history professing to be complete and not manifestly inconsistent is the production of a counter theory at once more complete and consistent The view of history here put forward it will be seen is in no sense my own It is drawn with some care from the various writings of Auguste Comte Although far from being able to adopt all his philosophical and religious conclusions I am persuaded that the conception of the past which is embodied in his works and the political and social principles of which that conception forms the basis point out the sole path towards all future improvement About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Meaning of History Nikolaĭ Berdiaev, Berdiaev considered the philosophy of history as a field that laid the foundations of the Russian national consciousness Its disputes were centered on distinctions between slavophiles and Westerners East and West The Meaning of History was an early effort following World War I that attempted to revive this perspective With the removal of Communism as a ruling system in Russia that nation returned to an elaboration of a religious philosophy of history as the specific mission

of Russian thought This volume thus has contemporary significance Its sense of the apocalypse which distinguishes Russian from Western thought gives the book its specifically religious character **The Meaning of History** George G. Loper,1998

Meaning of History F. Harrison,1903 **Time and Meaning in History** Nathan Rotenstreich,2012-12-06 There are several characteristics of Nathan Rotenstreich s work which are striking his thoughtful writings are both subtle and deep they are steeped in his critical appreciation of other thinkers of this and preceding times an appreciation which is formed by his learned understanding of the history of philosophy and with all this he has an original and independent intelligence He has from time to time brought his skills to bear upon historical scholarship most notably perhaps in his book *Between Past and Present* 1958 2nd edition 1973 his interpretive essays in the philosophy of history *Philosophy History and Politics* 1976 and his scholarly work concerned with the influence of historical development upon modern Jewish thought *Tradition and Reality* 1972 Related to these and equally works of that philosophical humanity which Professor Rotenstreich embodies are his *Humanism in the Contemporary Era* 1963 *Spirit and Man An Essay on Being and Value* 1963 and *Reflection and Action* 1983 Rotenstreich combines both the naturalistic and the phenomenological attitudes in an interesting and illuminating way through the full spectrum of issues in the philosophy of history in this century Surely he sets boundaries to any doubtful extrapolation Not only would he bring the understanding of history back from those who claim it as only a positive science but equally would he prevent the transformation of that understanding into merely speculative inquiry **The Meaning of History, and Other Historical Pieces** Frederic Harrison,2015-06-12 Excerpt from *The Meaning of History and Other Historical Pieces* This volume contains a collection of essays designed to stimulate the systematic study of general history They are with two exceptions the permanent and condensed form of historical lectures given in a series of courses at various places of education The writer has been constantly occupied with the teaching of history since 1862 and the first two chapters of this book were the introduction to a course of lectures given in that year to a London audience They were printed at the time but the issue has been long exhausted The third chapter which is in effect a Choice of Books of History and also the fifth chapter a synthetic survey of the Thirteenth Century were inaugural lectures given in the New Schools at Oxford to the summer vacation students The other chapters are based on lectures given by the writer at various times at Newton Hall Toynbee Hall the London Institution and other literary and scientific institutions About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Meaning of History Henry Kissinger,2022 In 1950 at the age of twenty seven Henry Kissinger wrote *The Meaning of History*

as his senior thesis at Harvard university Now more than 70 years later it s published for the first time The thesis explores the ideas of three important thinkers in Western philosophical and historical thought in a way that also reflects Kissinger s own transition from the Continental world to the Atlantic Oswald Spengler 1880 1936 a German historian and philosopher Arnold Toynbee 1889 1975 a British historian and philosopher and Immanuel Kant 1724 1804 a Prussian of the European Enlightenment era and one of the most important philosophers of this time The study wrestles with some of the first order dilemmas of Western political philosophical and moral thought Its scope ranges from the Enlightenment through to the midpoint of the twentieth century an era scourged by two world wars and the advent of the nuclear age It also provides great insight into the conceptual perspective of its author who was to become the most influential American statesman of the post war period
