## **Meaningful Work Rethinking Professional Ethics:**

*Meaningful Work* Mike W. Martin,2000-03-16 As commonly understood professional ethics consists of shared duties and episodic dilemmas the responsibilities incumbent on all members of specific professions joined together with the dilemmas that arise when these responsibilities conflict Martin challenges this consensus paradigm as he rethinks professional ethics to include personal commitments and ideals of which many are not mandatory Using specific examples from a wide range of professions including medicine law high school teaching journalism engineering and ministry he explores how personal commitments motivate guide and give meaning to work     *Resisting Neoliberalism in Higher Education Volume II* Catherine Manathunga,Dorothy Bottrell,2018-12-18 This book outlines the creative responses academics are using to subvert powerful market forces that restrict university work to a neoliberal economic focus The second volume in a diptych of critical academic work on the changing landscape of neoliberal universities the editors and contributors examine how academics prise open the cracks in neoliberal logic to find space for resistance collegiality democracy and hope Adopting a distinctly postcolonial positioning the volume interrogates the link between neoliberalism and the ongoing privileging of Euro American theorising in universities The contributors move from accounts of unmitigated managerialism and toxic workplaces to the need to decolonise the academy to finally illustrating the various creative and counter hegemonic practices academics use to resist subvert and reinscribe dominant neoliberal discourses This hopeful volume will appeal to students and scholars interested in the role of universities in advancing cultural democracy as well as university staff academics and students

Identity Excellence Perry L. Glanzer,2022-07-18 American higher education historically and inherently is a morally formative endeavor Yet in order to respond to America's moral pluralism higher education has increasingly taken a reductionistic approach to moral formation Consequently it abandoned the effort to supply students with moral expertise Current approaches help students learn how to be excellent professionals and citizens but they fail to provide the necessary tools for living the good life in college and beyond Identity Excellence A Theory of Moral Expertise for Higher Education addresses this problem by setting forth a multi disciplinary theory of moral expertise for fostering moral excellence in an array of important identities To this end it teases apart the essential elements of what it means to be excellent in an identity before discussing the philosophical sociological psychological and educational processes necessary for students to internalize traditions of identity excellence as part of their own moral identities Overall the emergent theory exposes the shortcomings in contemporary general education professional ethics and co curricular education Finally this book sets forth a bold but compelling vision for a more hopeful future for American higher education As outlined within such education involves teaching students excellence in the Great Identities as well as how to prioritize and integrate their pursuit of identity excellence     *Ha-Tov v'ha-Meitiv: Contemporary Scholarship in Jewish Studies* Simcha Fishbane,Eric M. Levine,Yosef Dov Robinson,2024-06-11 This book presents a group of distinguished scholars who examine key themes in Jewish religious life

Their essays revolve around the dimensions of rabbinic intellectual cultural communal educational political and social leadership as well as a reflective look at one of the most tragic events in Jewish experience towards the hope of repairing the world and not repeating such evil The scholarship reproduced in this volume captures the essence of Touro University remembering the past perpetuating the rich historic Jewish tradition of tolerance and dignity and managing the delicate ballet of serving humanity and the Jewish community at the same time These papers are expressive of the Jewish commitment to intellectual inquiry the transmission of knowledge and the pursuit of social justice

**The Positive Social Worker** Stewart Collins,2019-09-09 Developed from the author s own experiences in social work and social work education this book considers alternative approaches for social workers in dealing with the extensive demands persistent pressures and stress that they may face in their daily working lives The Positive Social Worker is firmly located in an individual group organisational cultural and socio political context It considers and celebrates concepts linked to the importance and sources of work related well being Individual chapters describe and critically analyse the social work context the role of hope optimism commitment resilience support appraisals positive emotions and coping self efficacy control and agency Throughout clear links are made with social work practice While the book concentrates on a UK context it draws on literature from social work social organisational work and positive psychology and sociology from the UK the USA Europe Australasia and other countries This book should be considered essential reading for social workers graduate and postgraduate social work students practice teachers and lecturers It will also be of relevance to professionals and professionals in training in the criminal justice and health and social care fields

*The Future of Financial Regulation* Iain G MacNeil,Justin O'Brien,2010-03-12 The Future of Financial Regulation is an edited collection of papers presented at a major conference at the University of Glasgow in spring 2009 co sponsored by the Economic and Social Research Council World Economy and Finance Programme and the the Australian Research Council Governance Research Network It draws together a variety of different perspectives on the international financial crisis which began in August 2007 and later turned into a

more widespread economic crisis following the collapse of Lehman Brothers in the autumn of 2008 Spring 2009 was in many respects the nadir since valuations in financial markets had reached their low point and crisis management rather than regulatory reform was the main focus of attention The conference and book were deliberately framed as an attempt to re focus attention from the former to the latter The first part of the book focuses on the context of the crisis discussing the general characteristics of financial crises and the specific influences that were at work this time round The second part focuses more specifically on regulatory techniques and practices implicated in the crisis noting in particular an over reliance on the capacity of regulators and financial institutions to manage risk and on the capacity of markets to self correct The third part focuses on the role of governance and ethics in the crisis and in particular the need for a common ethical framework to underpin governance practices and to provide greater clarity in the design of accountability mechanisms The final part focuses on the trajectory of regulatory reform noting the considerable potential for change as a result of the role of the state in the rescue and recuperation of the financial system and stressing the need for fundamental re appraisal of business and regulatory models

**Information Age** Michael Jay Quinn,2006 Widely praised for its balanced treatment of computer ethics Ethics for the Information Age offers a modern presentation of the moral controversies surrounding information technology Topics such as privacy and intellectual property are explored through multiple ethical theories encouraging readers to think critically about these issues and to make their own ethical decisions

**Profession, Code, and Ethics** Michael Davis,2002 This book offers a systematic analysis of professions emphasizing not special knowledge but special obligations Presenting a theory of

professions which explains the moral authority of professional codes this book presents an invaluable combination of systematic theory with detailed consideration of specific questions of professional ethics Three professions are chosen for comparison lawyering engineering and policing Both lawyering and engineering are examined as professions in being Davis explores what police have to do to turn their honest occupation into a profession like law or engineering arguing that what the police lack is not education as sociologists would propose but a set of standards beyond that which law market and morality demand to which they are willing to commit themselves

,2003    **Environmental Dilemmas** Robert Mugerauer,Lynne Manzo,2008-05-18 Because many people and ecosystems

share or constitute any given place they all have a stake in the outcome of what any of us do in regard to environmental problems It is not surprising that issues are hotly contested given the many divergent interests needs and preferences of a community s members much less those of people downstream who are affected by the consequences of our actions or of outside parties who play a part including those who would speak on behalf of the ecosystems Thus we not only must make careful individual decisions concerning the environment but need to improve the way we operate socially especially given the

roles and responsibilities we have as environmental professionals private sector developers public policy makers and staff or engaged citizens To aid in resolving our environmental dilemmas Mugerauer and Manzo focus on the decision making process Their goal is to help readers become more aware of the worldviews beliefs and values that enter into the decisions they make and to better resolve differences with others To guide readers in thinking about their own positions and how to approach ethical decisions Mugerauer and Manzo employ a number of exercises and cases to investigate the choices and issues that different stakeholders face for example concerning sustainability Additionally the book presents alternatives in terms of formalized ethical principles the major ethical theories and professional codes of ethics *Journal of Managerial Issues*, 2008 **A Comparison of Ethics Education in the Curriculum of Therapeutic Recreation, Physical Therapy, and Occupational Therapy Training Programs in the State of California** Nancy Kay Nisbett, 2001
