have to be interpreted by judges courts and para jurisdictional bodies The various degrees to which scientific data and moral

values have been integrated into the legal discourse reveal the need for a systematic review of the options and solutions that

judges have elaborated on In turn the book presents a systematic approach based on a proposed pattern for classifying these

various degrees together with an in depth analysis of the multi layered role of jurisdictions and the means available to them

for properly handling new legal demands arising in plural societies The book outlines a model that makes it possible to focus
