

MEDIA CULTURE

In cultural studies, the term "media culture" refers to the culture that resulted from American corporate consumer ideology and mass media (Thomas, 2012, p. 30).

EXPLANATION

Media culture refers to the immense impact of the media on public opinions, tastes, and values.

Media culture plays a significant role in shaping culture more broadly. In capitalist countries, media culture tends to position people as consumers who use their purchasing power to construct an individual identity.

EXAMPLES OF IMPACTS

Beauty Norms

Mass media tends to normalize certain standards of beauty. This can lead to body image concerns for consumers.

Gender Norms

Ideas about gender identity are reproduced through media, and historically, this has been highly heteronormative.

University of Amsterdam has a open course around the book The course offers a review of the key readings and debates in media production studies **Digital Media, Cultural Production and Speculative Capitalism** Freya Schiwyl, Alessandro Fornazzari, Susan Antebi, 2013-10-31 This collection of essays explores the interfaces between new information technologies and their impact on contemporary culture and recent transformations in capitalist production From a transnational frame the essays investigate some of the key facets of contemporary global capitalism the ascendance of finance capital and the increasing importance of immaterial labor understood here as a post Fordist notion of work that privileges the art of communication affect and virtuosity The contributors address these transformation by exploring their relation to new digital media YouTube MySpace digital image and video technology information networks etc and various cultural forms including the Hispanic television talk show indigenous video production documentary film in Southern California the Latin American stock market German security surveillance transnational videoconferencing and Japanese tourists use of visual images on cell phones The authors argue that the seemingly radical newness and alleged immateriality of contemporary speculative capitalism turns out to be less dramatically new and more grounded in colonial racial histories of both material and immaterial exploitation than one might at first imagine Similarly human interaction with digital media and virtuality ostensibly a double marker for the contemporary and economically privileged subject in fact reveals itself in many cases as transgressive of racial economic and historical categories *Production of Culture/Cultures of Production* Paul du Gay, 1997 The contributors examine the emergence of truly global cultural products and the strategies of global cultural players analyse how culture is circulated and consider why culture has become a crucial concern in business and organisations

Global Media Ecologies Doris Baltruschat, 2010-07-02 In this study Baltruschat calls attention to dramatic changes in worldwide media production Her work provides new insights into industry re organization digital media and audience interactivity as pivotal relationships are redrawn along the entire value chain of production distribution and consumption Based on an international study she details how cultural agents now negotiate a media landscape through collaborative ventures co productions and format franchising These varied collaborations define the new global media economy and affect a shift across the entire field of cultural production Through detailing the intricacies of globally networked production ecologies Baltruschat elucidates the shifting power relations in media production especially in regards to creative labor and trade of intellectual properties In the new global economy content has become the new currency As a result relational dynamics between cultural agents emerge as key forces in shaping worldwide cultural production now increasingly characterized by flexible production and consumption The blurring of lines in international media developments require new parameters which define creativity and intellectual property in relation to interactive audiences and collaboratively produced content Baltruschat clearly maps and defines these new dynamics and provides solutions as to how creative labor constellations can advance and enrich the new media economy This is especially pertinent as global film and TV production
