**Media, Politics and Environment** Detlef Briesen, Sarada Prasanna Das, 2023-07-15 Environmental protection has not equally established itself as a permanent fixture in the political systems of all countries to date governments and entire societies have responded to environmental challenges in a variety of ways and concrete

environmental policy is still a highly national matter Moreover the perception of environmental problems varies considerably on a global scale The reasons normally cited for these differences largely stem from the environmental policy debates themselves e g poverty ignorance capital interests etc In contrast this book shows that concrete environmental policy emerges from a complex interplay of mass media and political conflicts first the mass media provide the framework for national environmental policy through agenda setting framing and scandalization second the mass media thereby change values in the political and social discourse e g by altering the perception of global commons and expanding the possibilities of interest articulation and third this can lead to political decision making processes in which legal and other measures for environmental protection are enforced The book systematically compares industrialized countries such as Germany and Japan with several rapidly emerging countries in South and Southeast Asia

**Remote And Controlled** Matthew Robert Kerbel,2018-05-30 Remote and Controlled examines the issue of widespread cynicism in an era of abundant information asking whether it is possible to consume a steady diet of mainstream media and still understand and respect the political process Starting with central examples of television s political coverage and the media s focus on the president the author explores a variety of media from newspapers and radio to MTV and computer networks and political events and institutions Against a historical backdrop of political technological and institutional change the text raises critical questions for a society plugged into Rush Oprah and USA Today How do the media both magnify and undermine the president Can televised town meetings replace the real thing How do politicians seek to control the flow of information and what do the media do about it Does the information explosion provide greater diversity or simply greater convenience The second edition of this acclaimed text has been revised and updated to examine media coverage of recent events such as the Monica Lewinsky scandal In the process the author sheds light on the ultimate dilemma of whether an informed public will participate in a system in which campaigns are portrayed as if they were war policymaking is depicted as if it were a campaign and none of the participants reporters included appear particularly noble or worthy

Jacket      *News Grazers* Richard Forgette,2018-01-12 How has growing media choice transformed the way we gather news News Grazers Media Politics and Trust in an Information Age offers students an integration of the emerging effects that cable news online news and social media have had on American politics Author Richard Forgette an expert on the U S Congress and public policy draws on direct experimental research to argue that the diffusion of media outlets and media technologies has resulted in an increasingly fragmented and distracted news audience This unprecedented level of media choice is not only altering who accesses the news and how they do it more important it is changing the news itself With chapters on commentary news partisan news breaking news and fake news News Grazers gives students the tools they need to critically analyze the ever shifting media landscape Special attention is also paid to the effects of the media and political trust on the 2016 election

*The People's News* Joseph E. Uscinski,2014-02-03 Uncovers the surprising cause behind the recent rise of fake news In an ideal world journalists act selflessly and in the public interest regardless of the financial consequences However in reality news outlets no longer provide the most important and consequential stories to audiences instead news producers adjust news content in response to ratings audience demographics and opinion polls While such criticisms of the news media are widely shared few can agree on the causes of poor news quality The People s News argues that the incentives in the American free market drive news outlets to report news that meets audience demands rather than democratic ideals In short audiences opinions drive the content that so often passes off as the news The People s News looks at news not as a type of media but instead as a commodity bought and sold on the market comparing unique measures of news content to survey data from a wide variety of sources Joseph Uscinski s rigorous analysis shows news firms

report certain issues over others not because audiences need to know them but rather because of market demands Uscinski also demonstrates that the influence of market demands also affects the business of news prohibiting journalists from exercising independent judgment and determining the structure of entire news markets as well as firm branding Ultimately the results of this book indicate profit motives often trump journalistic and democratic values The findings also suggest that the media actively responds to audiences thus giving the public control over their own information environment Uniting the study of media effects and media content The People's News presents a powerful challenge to our ideas of how free market media outlets meet our standards for impartiality and public service
