## **Media And Performance Along The Border:**

**Media & Performance** Johannes H. Birringer, 1998 The author discusses the performance aspects of such political events as the breaching of the Berlin wall and the destruction of Sarajevo and examines the use of video and agitprop performance in political activity including protests by the gay activist group ACT UP and the disquieting performances of the former pornography actress and sex worker Annie Sprinkle Birringer ends with a discussion of the continuing incursions of business into digital media including the imperialism of technological enhancements as experienced in the culture of constant upgrades and the omnipresence of Bill Gates

**Performance and Media** Sarah Bay-Cheng, Jennifer

Parker-Starbuck, David Z. Saltz, 2015-11-05 This timely collaboration by three prominent scholars of media based performance presents a new model for understanding and analyzing theater and performance created and experienced where time based live events and mediated technologies converge particularly those works conceived and performed explicitly within the context of contemporary digital culture Performance and Media introduces readers to the complexity of new media based performances and how best to understand and contextualize the work Each author presents a different model for how best to approach this work while inviting readers to develop their own critical frameworks i.e. taxonomies to analyze both past and emerging performances Performance and Media capitalizes on the advantages of digital media and online collaborations while simultaneously creating a responsive and integrated resource for research scholarship and teaching Unlike other monographs or edited collections this book presents the concept of multiple taxonomies as a model for criticism in a dynamic and rapidly changing field

**Border Culture** Victor Konrad, Anne-Laure Amilhat Szary, 2022-12-29

This book introduces readers to the cultural imaginings of borders the in between spaces in which transnationalism collides with geopolitical cooperation and contestation Recent debates about the refugee crisis and the spread of the COVID 19 pandemic have politicized culture at and of borders like never before Border culture is no longer culture at the margins but rather culture at the heart of geopolitics flows and experience of the transnational world Increasingly culture and borders are everywhere yet nowhere In border spaces national narratives and counter narratives are tested and evaluated coming up against transnational culture This book provides an extensive and critical vision of border culture on the move drawing on numerous examples worldwide and a growing international literature across border and cultural studies It shows how border culture develops in the human imagination and manifests in human constructs of nation and state as well as in transnationalism By analyzing this new and expanding cultural geography of border landscapes the book shows the way to a fresh broader dialogue Exploring the nature and meaning of the intersection of border and culture this book will be an essential read for students and researchers across border studies geopolitics geography and cultural studies

**Performance on the Edge** Johannes Birringer, 2002-06-01 Performance on the Edge takes the reader on a journey across geographical borders and conceptual boundaries in order to map out the new territory of contemporary theatre dance

media arts and activism Working across social cultural and political fault lines the book explores performance as both process and contact as the commitment to political activism and the reconstruction of community as site specific intervention into the social and technological structures of abandonment and as the highly charged embodiment of erotic fantasies Performance on the Edge addresses the politics of community oriented and reconstructive artmaking in an era marked by the AIDS crisis cultural and racial polarization warfare separatism and xenophobia Provocatively illustrated with work from North and Central America and Eastern and Western Europe the book challenges our assumptions about the relations between media and activism technological imperatives and social processes and bodily identities and virtual communities

**Tactical Media** Rita Raley,2009 Tactical media describes interventionist media art practices that engage and critique the dominant political and economic order Rather than taking to the streets and staging spectacular protests the practitioners of tactical media engage in an aesthetic politics of disruption intervention and education In Tactical Media Rita Raley provides a critical exploration of the new media art activism that has emerged out of and in direct response to postindustrialism and neoliberal globalization
