

The Media War on Terrorism¹

Philip Hammond

London South Bank University

As the history of war correspondence shows, journalists generally play a highly supportive role in wartime, often acting as little more than a conduit for official propaganda. During the 1999 Kosovo conflict, for example, the media offered enthusiastic support, with few questions asked – until months after the war – about the reasons for and results of NATO's 'humanitarian' bombing campaign (Hammond, 2000). As Phillip Knightley noted at the time, in the only UK newspaper to oppose the bombing, 'the media tend to believe everything the military tells them' (*Independent on Sunday*, 27 June 1999). In the war on terrorism, however, there have been some surprises, including robust condemnations of American imperialism in the mainstream UK media. Channel Four put 'America On Trial' in a special programme (22 February 2003), for instance, while the *Daily Mirror*, one of Britain's best-selling tabloids, published prominent articles by radical journalist John Pilger and featured anti-war posters and petitions. This article investigates this shift, discussing what it involves, and indicating the limits of media criticism.

Media Cynicism

The war on terrorism is a war of images. Just as the September 11 attacks were calculated not simply to wreak terrible destruction but to create a global media spectacle by targeting symbols of American prestige and power, so too the response of the US and UK governments has been highly image-conscious. Particularly in those aspects of the war on terrorism which have involved actual war fighting, producing the right image appears to be at least as important as any tangible results achieved on the ground. This emphasis on image is a response to the lack of any political vision which can inspire loyalty and enthusiasm. Yet it ultimately serves only to exacerbate the problem, encouraging distrust of coalition claims and cynicism about the purpose and objectives of the war.

During the invasion of Iraq 'embedded' reporters produced much dramatic real-time footage of the rapid coalition advance, but the military did not always command the loyalty of the journalists travelling with them. One embedded photographer working for the *New York Times Magazine*, for instance, gave an interview to *Le Monde* (12

The News Media At War Tarek Cherkaoui, 2017-01-30 Tarek Cherkaoui reveals how geo political and ideological legacies of the past which divide the world into a dichotomy of us against them play a dominant role in reinforcing the ensuing polarisation of our media **Bush's War** Jim A. Kuypers, 2006-10-10 Immediately after the attacks of September 11 2001 Americans looked to President Bush for words of leadership In his most formal reply of the day he said Today our fellow citizens our way of life our very freedom came under attack in a series of deliberate and deadly terrorist acts The victims were in airplanes or in their offices secretaries businessmen and women military and federal workers moms and dads friends and neighbors Thousands of lives were suddenly ended by evil despicable acts of terror The stark tone of Bush's speech suggested the promise of more words to come from the president and it is these words that Bush's War addresses While many books have offered a take on the attacks of 9 11 and their impact upon American society one area has been comparatively ignored presidential justifications for war in the age of terrorism Specifically what did President Bush say to justify American military actions in the post 9 11 world And how did the public hear what he said especially as it was filtered through the news media The eloquent and thoughtful Bush's War shows how public perception of what the president says is shaped by media bias Jim A Kuypers compares Bush's statements with press coverage arguing that the nature of American public knowledge concerning our role in the world has been changed_not by 9 11 but by the subsequent argumentative back

Japanese Public Opinion and the War on Terrorism Robert D. Garfinkle, 2004 Why winning the war on terrorism requires more than military might **The War in Iraq and Why the Media Failed Us** David Dudge, 2006-07-30 Answers a key question on the lips of many Americans as violence in Iraq continues and report after report reveals that President Bush's reasons for leading Americans to war were not backed by solid evidence Why weren't the media more skeptical during the rush to war **The Media and Peace** G. Spencer, 2005-10-06 Much is known about the media's role in conflict but far less is known about the media's role in peace Graham Spencer's study addresses this deficiency by providing a comparative analysis of reporting conflicts from around the world and examining media receptiveness to the development of peace This book establishes an argument for the need to rethink journalistic responsibility in relation to peace and interrogates the consequences of news coverage that emphasizes conflict over peace Cultures of the War on Terror David Holloway, 2008 Holloway discusses representations of 9/11 and the war on terror in Hollywood film novels mass media visual art and photography political discourse and revisionist historical accounts of the American empire created between the 11 September attacks and the Congressional midterm elections in 2006 He suggests that the culture of the period not only prompted international crises in security governance and law but also points to a crisis unfolding in the institutions and processes of US republican democracy Cultures of the War on Terror offers a cultural and ideological history of the period showing how culture was used to debate legitimize qualify contest or repress discussion about the broader meanings of 9/11 and the war on terror 9/11, the War on Terror, and the Sociology of Mass Media Nickie Michaud Wild, 2018-03-26 9/11 the War on Terror and the Sociology of Mass Media explores the cultural and political impact of the terrorist attacks on September 11 2001 with particular emphasis on the media's role in constructing meanings in the wake of the tragedy The carefully selected readings within this anthology tell the story of how 9/11 was created that is how the story of the event was told and how it was not told In providing students with a comprehensive overview of the various narratives constructed in the aftermath of a defining moment in U S history the book sheds light on how government and media can shape stories and how those stories contribute to our social reality The book

begins with a selection of articles and chapters that offer students a thorough explanation of the attacks themselves as well as the effects they had on politics and other official publics The readings in Part 2 of the text explore society's reaction to 9 11 and the wars it produced with emphasis on the response of popular culture Part 3 provides an understanding of the social and historical reasons as to why the attacks happened both from the perspective of U S foreign policy and the terrorists who enacted the attack The anthology closes with a section that takes a look at the lasting effects of the attacks exploring cultural impact and the changing landscape of terrorist threats By encouraging students to rationally explore and ask questions about an event that many feel they've been unable to examine critically before 9 11 the War on Terror and the Sociology of Mass Media allows them to exercise their citizenship nationally and globally This anthology is well suited for intermediate courses in the sociology of mass media and mass communication as well as courses in terrorism and cultural sociology *Media, Terrorism, and Theory* Anandam P. Kavoori, Todd Fraley, 2006-01-20 Over the past few years coverage of terror attacks has featured prominently in numerous media outlets Drawing on both popular and academic articles the essays in *Media Terrorism and Theory A Reader* analyze the larger issues surrounding media's portrayal of terrorism including terrorism as a media event war and media nationalism and media public responsibility and journalistic accountability Renowned contributors from around the world explore these issues as they relate to a global community From such diverse fields as cultural studies political science media studies architecture and information science each brings a distinctive perspective Answering a growing need to understand media discourse on terrorism *Media Terrorism and Theory* complements readings in upper level mass communication courses and will appeal to students and scholars of international media and terrorism

Selling Fear Brigitte L. Nacos, Yaeli Bloch-Elkon, Robert Y. Shapiro, 2011-06-01 While we've long known that the strategies of terrorism rely heavily on media coverage of attacks *Selling Fear* is the first detailed look at the role played by media in counterterrorism and the ways that in the wake of 9 11 the Bush administration manipulated coverage to maintain a climate of fear Drawing on in depth analysis of counterterrorism in the years after 9 11 including the issuance of terror alerts and the decision to invade Iraq the authors present a compelling case that the Bush administration hyped fear while obscuring civil liberties abuses and concrete issues of preparedness The media meanwhile largely abdicated its watchdog role choosing to amplify the administration's message while downplaying issues that might have called the administration's statements and strategies into question The book extends through Hurricane Katrina and the more skeptical coverage that followed then the first year of the Obama administration when an increasingly partisan political environment presented the media and the public with new problems of reporting and interpretation *Selling Fear* is a hard hitting analysis of the intertwined failures of government and media and their costs to our nation
