Palestinian Regime A Partial Democracy:

The Palestinian Regime As'ad Ghanem, As'ad Ganim, 2002 This book examines the new political order that emerged in the West Bank and Gaza after the establishment of the Palestinian National Authority PNA in 1994 It demonstrates that two political systems exist in the West Bank and Gaza Strip one which is active undemocratic and dominant and one which is passive democratic and overshadowed by the first As ad Ghanem demonstrates how Yassir Arafat has created an authoritarian regime and how he controls this through the concentration of power intimidation and bribery after having shoved aside the forces that had shaped the emerging political order that had come into being before the establishment of the PNA This order which incorporated political pluralism struggle protest on behalf of change and voluntary organizations that were the first sign of the appearance of a Palestinian civil society functions as a weak shadow of Arafat s centralized regime The research for this book is based on original sources and documents of the PNA interviews with the political leadership of the PNA and opposition and the reports of Human Rights organizations of PNA violations Included as an Appendix are English language translations of the Palestinian Authority s Political Program the Palestinian Legislative Council s Proposals for Independence of the Judiciary Standing Orders of the Palestinian Council and Palestinian Basic Law including Public Rights and Freedoms as it relates to executive and judicial authority *Palestinian Politics After Arafat* As'ad Ganim, 2010 Here the author analyzes the internal and external events that unfolded as the Palestinian national movement became a failed national movement marked by internecine struggle and collapse the failure to secure establishment of a separate state and much more *The Palestinian Regime* As'ad Ganim, 2001 This text examines the new political order that emerged in the West Bank and Gaza after the establishment of the Palestinian National Authority PNA in 1994 It demonstrates that two political systems exist in the West Bank and Gaza Strip one which is active undemocratic and dominant and one which is passive democratic and overshadowed by the first As ad Ghanem demonstrates how Yassir Arafat has created an authoritarian regime and how he controls this through the concentration of power intimidation and bribery after having shoved aside the forces that had shaped the emerging political order that had come into being before the establishment of the PNA This order which incorporated political pluralism struggle protest on behalf of change and voluntary organisations that were the first sign of the appearance of a Palestinian civil society functions as a weak shadow of Arafat s centralized regime **Between State and Non-State** Gülistan Gürbey, Sabine Hofmann, Ferhad Ibrahim Seyder, 2017-03-23 This edited volume compares the internal dimension politics and society in Kurdistan Iraq and Palestine In particular it focuses on internal processes in Kurdistan Iraq and Palestine Palestinian Territory of the West Bank and Gaza Strip in their specific shaping development and transformation The contributing authors analyze the transformation processes of the internal power structures the economic basics and the civil societies and provide an overview of the current political economic and societal situation and challenges in both regions The book presents the similarities and differences

between both de facto states with regard to a set of guidelines legitimacy power relations transformation of politics and society It provides empirical explanations and contributes to a better understanding of both de facto states *Between Resistance, Sharia Law, and Demo-Islamic Politics* Michael Schulz, 2020-11-03 Despite the fact that many researchers have focused on Hamas armed resistance activities surprisingly few have theorised about the political choices and dilemmas that Hamas has faced in the context of the changing overarching conflict between Israelis and Palestinians This study aims to show theoretically how context dependent Hamas is when formulating its resistance and Demo Islamic practise and that this occurs in interrelations with key actors of the conflict This study also presents important new empirical data that in part also challenges previous research Hamas is one of the very few Islamist organisations that has reached a governance position via democratic and fair elections Thus Hamas can serve as a case study of how Islamist may act in quasi democratic surroundings At the same time Hamas is a key actor in the overarching conflict which has several unique characteristics Hamas armed resistance is described as an instrument for the Jihad against the Israeli occupation However the Dawa work at the grassroots level can also be seen as a resistance practice that can be identified as constructive resistance The internal discussion in Hamas as to what strategies to apply as will be shown are also formed and impacted by various interrelations with external actors of the conflict The Palestinian public in particular is a key actor that influences Hamas in various ways although Fatah PLO Israel and other external actors also have their specific roles to play

Peace Processes and Peace Accords Samir Kumar Das, 2005-11-05 The second volume in the South Asian Peace Studies series Peace Processes and Peace Accords looks at the political question of peace from three perspectives the process of peace the contentious issues involved in the peace process and the ideologies that come in conflict in this process Arguing that peace is not a one time event to be achieved and rejoiced over but a matter to be sustained against various odds the contributors show that the sustainability of peace depends on a foundation of rights justice and democracy Peace accords they maintain are only a moment in the process the very act of signing an accord could mark either a continuation of the same conflict or simply its metamorphosis Therefore as this volume shows negotiation should be redefined as joint problem solving on a long term sustained basis rather than one off hard bargaining

The Arab Authoritarian Regime Between Reform and Persistence Henner Fürtig, 2007 Economic and or political liberalisation became a symbol of Arab authoritarian regimes since the initial phase of the oethird wave of democratisation in the early 1990s Arab rulers found out that liberalisation could help strengthening their authoritarian rule it diminishes both internal and external pressure and increases their legitimacy While the regimes soon figured out that the West finally preferred stability and the containment of Islamic militancy to uncertainty caused by democratic oexperiments 9 11 proved the failure of this unwritten agreement Based on the experience that democracies do not wage wars against each other the U S government came to the conclusion that only a sincere advancement of human rights and democracy in the Islamic world would in the long run avoid a repetition of 9 11 like

events The book analyses in detail how selected Arab regimes from Morocco in the West via Egypt in the centre to Syria and Palestine in the East reacted to this new unprecedented challenge Most of them promised a substantial intensification of the liberalisation process Therefore the book had to answer the question whether the current reforms are still rhetorical and cosmetic or real and radical i e whether they once again rather foster the authoritarian regimes or lean towards the promotion of democratisation this time Although a certain surplus of freedom for the ruled could be measured the book resumed that the liberalisation process is still opposed to democratisation insofar as the authoritarian elite continues to use it as a tool to avoid democracy Nevertheless the authors did not stop here They stated that under the complex circumstances of the modern world even rational actors such as Arab regimes cannot assess all the long term consequences of their actions Therefore they cannot definitely be sure whether a specific measure contributes to the strengthening or to the weakening of their rule Unintended the reforms may result in long term developments which are detrimental to the interests of the authoritarian elite In other words if certain liberalisation policies increase the legitimacy of the authoritarian rule in the short run it still cannot be excluded that they may destabilise the system in the long run i e democracy may come about by accident

Migdal, 2003 In a timely reminder of how the past informs the present Baruch Kimmerling and Joel Migdal offer an authoritative account of the history of the Palestinian people from their modern origins to the Oslo peace process and beyond Palestinians struggled to create themselves as a people from the first revolt of the Arabs in Palestine in 1834 through the British Mandate to the impact of Zionism and the founding of Israel Their relationship with the Jewish people and the State of Israel has been fundamental in shaping that identity and today Palestinians find themselves again at a critical juncture In the 1990s cornerstones for peace were laid for eventual Palestinian Israeli coexistence including mutual acceptance the renunciation of violence as a permanent strategy and the establishment for the first time of Palestinian self government But the dawn of the twenty first century saw a reversion to unmitigated hatred and mutual demonization By mid 2002 the brutal violence of the Intifada had crippled Palestine's fledgling political institutions and threatened the fragile social cohesion painstakingly constructed after 1967 Kimmerling and Migdal unravel what went right and what went wrong in the Oslo peace process and what lessons we can draw about the forces that help to shape a people The authors present a balanced insightful and sobering look at the realities of creating peace in the Middle East
