Palliative Care In Ireland:

EBOOK: Palliative Care in Ireland Julie Ling, Liam O'Siorain, 2005-05-16 This book describes the history and development of palliative care services in the Republic of Ireland. Written from a multi professional perspective the book appeals to anyone with an interest in hospice and palliative care in Ireland. In attempting to explore what is different about Irish palliative care this book delves into the cultural, religious and social factors particular to modern Ireland from the historical roots of the Irish palliative care movement through to the publication of the Government's blueprint for the future development of services. Palliative Care In Ireland explores the provision of palliative care services, bereavement, the influence of folklore, holistic care, faith, religion and spirituality and the important contributions of the voluntary sector. The changing face of Ireland is described and challenges ahead are considered. This is the first book to truly capture the Irish dimension and is essential reading for those in emerging services worldwide where similar challenges are faced and where local and national influences determine the uniqueness of a particular model of service delivery. The book is key reading for students and researchers as well as all those involved in the delivery and management of palliative care services.
