Pandemonium Tremendum James E. Hutchinson,2010-02-01 James E Hutchinson takes computer and information science seriously in this constructive theology Central to his reflection is an understanding of the primordial chaos Pandemonium Tremendum not as destructive but as the source out of which God creates sustains and empowers creatures to become co creators    *Pandemonium Tremendum* James Edward Hutchinson,2001    *The Subjective Eye* Richard Valantasis,Deborah J. Haynes,James D. Smith,Janet F. Carlson,2006-05-15 One of the great joys of the academic life is to pay homage in a Festschrift to a scholar who has influenced both colleagues and students over years of interaction and friendship both professional and personal This volume honors a scholar and theologian of historical theology a theorist and a practitioner of religion and the arts and a keen analyst of cultural trends both ancient and modern Margaret R Miles s prodigious production as a scholar has legendary qualities Her dozen plus books alone explore history patristics ancient philosophy art and art history spiritual formation and religious practice critical theory film ethics and values personal growth gender and women s studies as well as her true academic loves Augustine and Plotinus The breadth and depth of her own work and her influence upon others demands an expansive volume which the editors of this Festschrift unfortunately had to restrict to four categories Historical Theology Religion and Culture Religion and Gender and Religion and the Visual Arts in order to capture the heart of our appreciation for her from the Introduction    *Creation and Chaos* Talk Eric M. Vail,2012-06-07 Talk about chaos is pervasive Biblical scholars theologians and scientists have been using the word chaos for some time occasionally mingling ideas across disciplines around the shared word Quite often discussions of chaos center on the issues of creation s origin and nature as well as on God s creative methods and relationship to creation Eric M Vail investigates the current uses of the word chaos in those areas A new way of articulating creation out of nothing is offered as both helpful and appropriate in our current milieu He suggests where we ought to focus our use of the word chaos in Christian discourse and argues that chaos is more fitting for naming where creation has gone awry rather than for naming that state out of which creation comes to be    **Christian Life and Practice** Owen C. Thomas,2009-01-01 This book is a study of the Christian life and the practice of Christians and the church from an Anglican perspective It begins with an analysis and explication of the structure and process of the Christian life before God in the church and the world involving a five fold rule of life and the relation of this to spiritual direction This is followed by an analysis and critique of the current spirituality movement which arose in the 1970s and which has come to dominate and mislead the churches A sequel to the latter explains the origin of the spirituality movement in the current Romantic movement that arose in the 1960s and has influenced all aspects of our culture with ambiguous results Next there is a critique of contemporary parish ministry as practiced in residential parishes that at best ministers only to the private lives of its members followed by a fictional story of such a residential parish that suggests a new departure in parish ministry Then there is a critique of preaching in the

Episcopal Church that is generally considered to be poor and a proposal of a way to overcome this The concluding three chapters treat a fundamental problem in our approach to private prayer and a way to resolve this a proposal for a way to overcome the current impasse in the Anglican Communion concerning homosexuality and a meditation on the responsibility of Christians in public life

**Sacramental Theology** Bruce T. Morrill,2019-11-18 Throughout the second half of the twentieth century sacramental theology has evolved as a discipline advancing comprehensive theories of sacraments and sacramentality as integral to the Christian faith while also studying the history and theology of the particular rites Now in the twenty first century the need for attention to the actual performance and specific social settings of sacramental worship has become well established This makes the work of sacramental theology necessarily engaged with multiple cross disciplinary theories attentive to particular contexts whether local national or global Still the divine human encounter at the heart of Christian symbol and ritual likewise beckons to philosophical theological reflection The essays in this volume begin with profound philosophical perspectives on the personal and communal sacramental experience expanding from traditional cosmology to evolutionary and chaos theories of our planetary existence continuing with shifts especially among youth to interreligious and non institutional perspectives consideration of change in popular notions of guilt and social ethical issues in relation to liturgical theology and practice so as finally to return to fundamental theological reflection on human
