Panzer Iv Lang:

Panzer IV Thomas Anderson, 2021-01-21 This highly illustrated title details the history of the Panzer IV throughout World War II where it saw service on the front line from Poland in 1939 through to the very last days of the Third Reich in Berlin in 1945 The Panzer IV programme was started in 1934 forming alongside the Panzer IIs and IIIs the schnellen Truppen the force that was to become the Panzerwaffe At first German planners envisioned the tank in a secondary role but during the invasions of The Low Countries and France it took on a more central role When the Panzerwaffe turned east to attack the Soviet Union the Panzer IV initially fared poorly against the better armed T 34 However upgrades to its gun and armour protection saw it perform far better not only against Soviet armour but also against British and American tanks in North Africa and Italy In 1944 it was slowly replaced by the Panzer V Panther but the dire strategic situation meant that it bore the brunt of the Allied D Day invasion and its aftermath and it remained in service until the end of the war Fully illustrated throughout with contemporary photographs this fascinating study from German armour expert Thomas Anderson tells the complete story of Germany's most widely produced tank of World War II from its design and development to its many upgrades and variants

Jagdpanzer IV - German Army and Waffen-SS Tank Destroyers Dennis Oliver, 2020-08-31 Combining the destructive firepower of the 75mm gun with the mobility of the Pzkw IV medium tank the Jagdpanzer IV was quite possibly the most effective tank destroyer of the Second World War From early 1944 these vehicles were allocated to the anti tank battalions of Panzer and Panzergrenadier divisions and saw action in Normandy the Ardennes and the final battles in Germany In his latest book in the TankCraft series Dennis Oliver uses contemporary photographs and meticulously researched superbly presented color and monochrome illustrations to tell the story of these self propelled anti tank guns and the units which operated them in the German defense of the Western Front As with all the books in the TankCraft series a large part of this work showcases available model kits and after market products complemented by a gallery of expertly constructed and painted models Technical details as well as modifications introduced during production and in the field are also explained giving the modeler all the information and knowledge required

Building Guderian's Duck: Germany's Response To The Eastern Front Antitank Crisis, 1941 To 1945 L-Commander Scott M. Chafian, 2014-08-15 The appearance of the T 34 in 1941 caused a crisis for German antitank forces Existing antitank guns were nearly impotent against the new Russian tank while antiaircraft and artillery pieces though successful when pressed into action were insufficiently mobile to accompany mechanized forces The German Army Ordnance Office the Heereswaffenamt was responsible for development of new weapons and would be responsible for countering the threat of Russian armor The Heereswaffenamt would need to not only counter the T 34 but also do so in an environment of shifting political relationships and with an increasingly stressed industrial system Utilizing lessons from the bitterly contested battlefields of western Russia the Heereswaffenamt developed a tank destroyer the Jagdpz IV using the existing chassis of the Panzer IV tank and the guns of both the Panzer IV and
