Adventist Interchurch Relations Stefan Höschele,2022-09-05 This study presents the first comprehensive analysis of Seventhday Adventist interchurch relations a 20 million member body whose ecumenical stance has so far been underresearched For the sake of interpreting denominational involvement and reservations in Adventism as well as beyond the study develops a new academic approach to ecumenism based on Relational Models Theory a comprehensive social science paradigm of interpreting human relationships The resulting typology of ecumenical interactions and the historical case study of Adventism suggest that such a relational interpretation of ecumenical interaction sheds light on many of the unresolved issues in ecumenics such as divergent concepts of unity difficulties in recognition processes and the permanence of denominationalism **Tracks and Traces** Paul S. Fiddes,2007-09-01 This is a comprehensive yet unusual book on the faith and life of Baptist Christians It explores a Baptist understanding of the church ministry sacraments and mission from a thoroughly theological perspective In a series of interlinked essays the author relates Baptist identity to a theology of covenant and to participation in the communion of the triune God The book thus surveys the tracks of heritage giving a solid historical background to each of the major themes while at the same time offering traces of possible paths for the future based on a tracing out of a vision of God **Newspaperdom** ,1900 **Officers of General Synod** , **Wartime Culture in Guilin, 1938-1944** Pingchao Zhu,2015-10-30 This book examines the development of wartime culture in the city of Guilin Guangxi Province in southwestern China during a major part of the country s war of resistance against Japanese invasion between 1938 and 1944 This study challenges existing historiography on China s wartime culture at three levels First the Guangxi warlord group played a crucial role in maintaining regional security providing a liberalized political environment for wartime cultural activities and facilitating wartime nationalist communist relations at both local and national levels Second wartime culture was more literary than political and it reflected a powerful intellectual vigor that was an indispensable component of China s war efforts Intellectuals of different social and political backgrounds were their own organic selves feeling no pressure to come to intellectual consensus in literary production Third wartime culture was characterized by the active participation of many international groups political organizations and foreign individuals The literary works produced in Guilin between 1938 and 1944 clearly reflected a combination of Chinese national and international anti fascist and anti military sentiment Chinese literary masterpieces were translated into different foreign languages and noted foreign literature and political works were introduced to Chinese audiences through various cultural and political exchange programs in the city **Journeys in Biblical Studies** Society of Biblical Literature.
