**A Leap from the Clouds** Jerry Kuntz,2022-07-26 In the late nineteenth century circus aerialists collaborated with show balloonists to perform death defying stunts initially by suspending themselves from trapeze bars beneath a balloon later by jumping from the balloons using fabric parachutes By the 1890s these performances became a worldwide craze remaining in rural fairs and fetes for decades Many of the original balloon parachute pioneers went on to play key roles in the creation of airships test flying the first gliders and airplanes Based on extensive historical research this unusual account explores how a nineteenth century daredevil act united with the desire to achieve human flight These performers contributions did not come without a price dozens if not hundreds of people died in horrifying events witnessed by thousands of spectators This book chronicles the act that had no practical purpose other than entertainment which eventually evolved into the development of the free fall parachute pack a key aviation need and the foundation of a new activity known as skydiving

**Magnificent Failure** Craig Ryan,2014-09-02 Locked in a desperate Cold War race against the Soviets to find out if humans could survive in space and live through a free fall from space vehicles the Pentagon gave civilian adventurer Nick Piantanida s Project Strato Jump little notice until May Day 1966 Operating in the shadows of well funded high visibility Air Force and Navy projects the former truck driver and pet store owner set a new world record for manned balloon altitude Rising more than 23 miles over the South Dakota prairie Piantanida nearly perished trying to set the world record for the highest free fall parachute jump from that height On his next attempt he would not be so lucky Part harrowing adventure story part space history part psychological portrait of an extraordinary risk taker this story fascinates and intrigues the armchair adventurer in all of us

**Parachuting** Jim Bates,1990 *Birdmen, Batmen, and Skyflyers* Michael Abrams,2007-05-22 The Wright Brothers were wimps Or so you might think after reading this account of their unsung but even more daring rivals the men and women who strapped wings to their backs and took to the sky If only for a few seconds People have been dying to fly quite literally since the dawn of history They ve made wings of feather and bone leather and wood canvas and taffeta and thrown themselves off the highest places they could find Theirs is the world s first and still most dangerous extreme sport and its full history has never been told Birdmen Batmen and Skyflyers is a thrilling hilarious and often touching chronicle of these obsessive inventors and eccentric daredevils It traces the story of winged flight from its doomed early pioneers to their glorious high tech descendants who ve at last conquered gravity sometimes anyway Michael Abrams gives us a brilliant bird s eye view of what it s like to fly with wings And then inevitably to fall In the

Immortal Words of Great Birdmen Someday I think that everyone will have wings and be able to soar from the housetops But there must be a lot more experimenting before that can happen Clem Sohn the world's first batman who plummeted to his death at the Paris Air Show in 1937 The trouble was that he went only halfway up the radio tower If he had gone clear to the top it would have been different Amadeo Catao Lopes in 1946 explaining the broken legs of the man who tried his wings One day a jump will be the last The jump of death But that idea does not hold me back Rudolf Richard Boehlen who died of jump related injuries in 1953 It turned out that almost everyone from the thirties and forties had died That just made me want to do it more Garth Taggart stunt jumper for The Gypsy Moths filmed in 1968 You have to be the first one The second one is the first loser Felix Baumgartner who in 2003 became the first birdman to cross the English Channel
