Ebersole, 2002-07-18 Frank Ebersole is a philosopher whose contribution to philosophy is the greatest of anyone this the 20th century especially in the areas of philosophy of language theory of knowledge and perception from Wittgenstein Empiricism and Language by John W Cook Oxford University Press 1999 Meaning and Saying has five chapters that address philosophical problems about language and knowledge and one essay chapter 6 Postscript that provides insights into some of Frank Ebersoles basic ideas about philosophy The five essays let you participate in his unique struggles to come to terms with such questions as Is the meaning of a word central to the philosophy of language Is the meaning of a word the part the word plays in speech acts How does the action of making sounds fit into speech Are conditions for knowing something the same as conditions required for saying one knows something Should philosophers still be doing conceptual analysis Can G E Moore really refute the philosophical skeptic by displaying his hand and saying I know this is my hand This and its companion volume Language and Perception are not just other philosophy books about the philosophy of language In both books Ebersole by carefully using examples convincingly shows that the problems are products of philosophical pictures The examples also make the pictures less compelling How the Second Edition Differs from the First Edition This edition differs from the first edition University Press of America 1979 in several ways Two more essays are included Saying and Meaning chapter 4 is a revised version of an essay originally published in Ludwig Wittgenstein Philosophy and Language eds Alice Ambrose and Morris Lazerowitz George Allen and Unwin London and Humanities Press New York 1972 pp 186221 Saying What You Know chapter 5 was first read as a paper in Coos Bay Oregon on May 26 1996 at the conference Where the Action Is A modified version of the paper was then published in Philosophical Investigations vol 23 no 3 July 2000 Now it has been expanded and revised Material that was formerly part of the preface is now revised and placed as chapter 6 at the end entitled Postscript The text is improved Throughout the book Ebersole has made corrections stylistic improvements and changed wording to remove ambiguities Summary Language and logic provide philosophers with a dual problem 1 How is language connected to the world and 2 how can philosophers use language and logic with care so as not to contaminate their own thinking Speech acts and the use of sentences are thought to be better ways for philosophers to understand language and logic But do they do the job Preface In the early 1920s philosophers argued that philosophy should be philosophy of

language but this was just old wine in new bottles then the Wittgensteinian revolution occurred which identified meaning as the use of words and thereafter identified the meaning of a word with the use of a word The book addresses some problems with this revolution Chapter 1 Meaning and Use Philosophy of Nonsense Jean-Jacques Lecercle,2012-11-12 Jean Jacques Lecercle s remarkable Philosophy of Nonsense offers a sustained and important account of an area that is usually hastily dismissed Using the resources of contemporary philosophy notably Deleuze and Lyotard he manages to bring out the importance of nonsense Andrew Benjamin University of Warwick Why are we and in particular why are philosophers and linguists so fascinated with nonsense Why do Lewis Carroll and Edward Lear appear in so many otherwise dull and dry academic books This amusing yet rigorous new book by Jean Jacques Lecercle shows how the genre of nonsense was constructed and why it has proved so enduring and enlightening for linguistics and philosophy Arabic-English Lexicon Edward William Lane,1874 *Economics for Beginners* Henry Dunning Macleod,1879 **The Maqámát of Bádí'**
