Meaning In History:

The Meaning of History. Two Lectures Frederic Harrison, 1862 **Meaning in History** Karl Löwith, 1957-04-15

Modern man sees with one eye of faith and one eye of reason. Consequently his view of history is confused. For centuries the history of the Western world has been viewed from the Christian or classical standpoint from a deep faith in the Kingdom of God or a belief in recurrent and eternal life cycles. The modern mind however is neither Christian nor pagan and its interpretations of history are Christian in derivation and anti-Christian in result. To develop this theory Karl Löwith, beginning with the more accessible philosophies of history in the nineteenth and eighteenth centuries and working back to the Bible, analyzes the writings of outstanding historians both in antiquity and in Christian times. A book of distinction and great importance. The author is a master of philosophical interpretation and each of his terse and substantial chapters has the balance of a work of art. Helmut Kuhn, *Journal of Philosophy*. *The Meaning of History* Nikolaj Aleksandrovič Berdjajev, 1936

The Meaning of History Nicolas Berdiaev, 1949 **The Meaning of History** Frederic Harrison, 1916 *The Meaning of History, and Other Historical Pieces* Frederic Harrison, 1908 *The Meaning of History* Nikolaï Berdiaev, 1945

The Meaning of History Nikolaj A. Berdjajev, 1968 *The Meaning of History* Nikolaï Berdiaev, 1983 *The Meaning of History* Nikolaï Berdiaev, 1983. Berdiaev considered the philosophy of history as a field that laid the foundations of the Russian national consciousness. Its disputes were centered on distinctions between slavophiles and Westerners. East and West. *The Meaning of History* was an early effort following World War I that attempted to revive this perspective. With the removal of Communism as a ruling system in Russia that nation returned to an elaboration of a religious philosophy of history as the specific mission of Russian thought. This volume thus has contemporary significance. Its sense of the apocalypse which distinguishes Russian from Western thought gives the book its specifically religious character. **Time and Meaning in**

History Nathan Rotenstreich, 2012-12-06. There are several characteristics of Nathan Rotenstreich's work which are striking. His thoughtful writings are both subtle and deep; they are steeped in his critical appreciation of other thinkers of this and preceding times; an appreciation which is formed by his learned understanding of the history of philosophy and with all this he has an original and independent intelligence. He has from time to time brought his skills to bear upon historical scholarship, most notably perhaps in his book *Between Past and Present* (1958, 2nd edition 1973) his interpretive essays in the philosophy of history *Philosophy, History and Politics* (1976) and his scholarly work concerned with the influence of historical development upon modern Jewish thought *Tradition and Reality* (1972). Related to these and equally works of that philosophical humanity which Professor Rotenstreich embodies are his *Humanism in the Contemporary Era* (1963), *Spirit and Man: An Essay on Being and Value* (1963) and *Reflection and Action* (1983). Rotenstreich combines both the naturalistic and the phenomenological attitudes in an interesting and illuminating way through the full spectrum of issues in the philosophy of history in this century. Surely he sets boundaries to any doubtful extrapolation. Not only would he bring the understanding of

history back from those who claim it as only a positive science but equally would he prevent the transformation of that understanding into merely speculative inquiry *The Meaning of History and Other Historical Pieces* Frederic Harrison,1894 **The Meaning of History** Nikolai Berdiaev,2003-01-01 [The Collected Works of Eric Voegelin, Volume 26, History of Political Ideas, Volume VIII, Crisis and the Apocalypse of Man](#) Eric Voegelin,1999-07 *Girls' Christian Names, Their History, Meaning and Association* Helena Swan,1905 **Meaning in History** Wilhelm Dilthey,1961 *The Meaning of History* Frederic Harrison,2018-01-15

Excerpt from *The Meaning of History* Two Lectures

Tim following pages contain two lectures recently addressed to a mixed audience in London as an introduction to a course of teaching in History which was subsequently commenced by the writer They are printed nearly as they were spoken at the request and chiefly for the use of those who heard them It will be seen that they belong to the most elementary kind of popular instruction and they will have little interest for the general reader much less for the regular student of history I was led to attempt the course of lectures and afterwards to print these pages by my conviction that the first want of our time is the spread amongst the intelligent body of our people of solid materials to form political and social opinion To stimulate an interest in history seems to me the only means of giving a fresh meaning to popular education and a higher intelligence to popular Opinion I am aware that nearly every sentence in this outline were it not too slight might give room for serious question and possibly for severe criticism But if opposite opinions are not noticed they have still been carefully weighed If I have spoken of many still debated topics almost as though they were decided it is only because in such a plan as this any sort of controversy is out of place not that I forget or slight all that has been urged on the other side But discussion like research must have an end somewhere and the great need now is not to increase but to use our stores of historical learning After all the only real answer to any theory of history professing to be complete and not manifestly inconsistent is the production of a counter theory at once more complete and consistent The view of history here put forward it will be seen is in no sense my own It is drawn with some care from the various writings of Auguste Comte Although far from being able to adopt all his philosophical and religious conclusions I am persuaded that the conception of the past which is embodied in his works and the political and social principles of which that conception forms the basis point out the sole path towards all future improvement About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Psychical Research and Thought Transference: Their Meaning and Recent History](#) Eden Paul,1911
