the Mayan civilization predicted some 26 000 years ago December 21st 2012 There is much work to be done as we realize the need for the shift that must occur in our personal lives so that we can be in sync with the new fifth dimensional energy on this planet As our world resets itself so too must we reset ourselves What this means to each of us is that it is time to understand the meaning of how to live more fully in the fifth dimension Each of us must identify where we currently stand and where we need to go in order to experience the wonderment of fifth dimensional living Why Many of us may be existing as a two or a three dimensional person The energies that sustain those dimensions no longer exist on this planet So the old ways of thinking or operating that produced success at one time no longer exist It is now necessary for us if we are to exist in harmony with our planet to transition as well If we choose not to transition then frustration and anger will become paramount in our lives The choice is up to us To live in the fifth dimension is not only to experience the energy of magic and miracles but to learn that we can create all the perfection we desire in our lives by simply shifting our thinking into fifth dimensional thinking We are able to see the perfection where formerly we saw the illusion of imperfection This new vantage point allows us to become the center of our own reality and easily navigate through difficult individuals and challenging events while maintaining a state of balance and harmony We are then able to turn possibilities into probabilities and probabilities into actualities This journey begins with describing and identifying all of the unseen but certainly not unfelt influences in our lives that have been given to each of us to help us live our life on earth in the best and easiest manner possible Each reader will be able to identify their birthright gift as well as the other gifts available to tap into and expand one's energy thereby allowing this innate knowledge to grow and develop All of the necessary techniques and tools are explained in detail in this book so that you can easily make the transition from your current dimension into the fifth dimension allowing you to create a new future You are able to learn and make friends with each of your bodies of consciousness and their respective inner child and together you begin a journey of healing You as parent of these inner children learn how to set the stage and the rules so that everyone is playing by the same playbook You learn that you may win as a team or you may lose as a team but you are all on the same team working together to achieve that balance that allows you to maintain your newly found center By removing fears one by one each of us can transition from a place of fear into a place of love learning to live from the heart As we work towards this goal we isolate and identify the negative emotions that have been growing and harvesting within These negative emotions equate disease This book is your guide to help acknowledge these fears recognize and release them one by one creating a new you a lighter you We then experience a new energy a more evolved energy a higher vibrating energy as we invite the energy of excellent health and balance into our bodies It is here that The Herb Quarterly ,2000 *The Year's Best Fantasy and Horror* ,2002 *Revelations in Air* Jude Stewart,2021-10-26 An extraordinary strange and startlingly beautiful exploration of smell the least understood of our five senses The nose on your face is the Buckingham Palace Guard of your body the maitre d of all taste as well as the seducer of your imagination and

memory and Jude Stewart has charmed them all into a wicked poetic and illuminating tour of their mysterious domains Jack Hitt author of *Bunch of Amateurs* Overlapping with taste yet larger in scope smell is the sense that comes closest to pure perception Smell can collapse space and time unlocking memories and transporting us to worlds both new and familiar Yet as clearly as each of us can recognize different smells the bright tang of citrus freshly sharpened pencils parched earth after rain few of us understand how and why we smell In *Revelations in Air* Jude Stewart takes us on a fascinating journey into the weird and wonderful world of smell Beginning with lessons on the incredible biology and history of how our noses work Stewart teaches us how to use our noses like experts Once we re properly equipped and ready to sniff Stewart explores a range of smells from lavender cut grass and hot chocolate to cannabis and old books using smell as a lens into art history science and more With an engaging colorful design and exercises for readers to refine their own skills *Revelations in Air* goes beyond science or history or chemistry it s a doorway into the surprising pleasurable and unfamiliar landscape of smell
