**Essentials of Educational Measurement** Robert L. Ebel, 1979

**Educational Measurement and Evaluation** Dr Paresh B Acharya, 2015-11-27

Measurement and evaluation is a required subject in all teacher education sources. Its importance as a subject cannot be overemphasized for with it the teacher becomes empowered to assess the student's performance and assist them in learning process. We have tried to introduce this subject matter in this book in the simplest possible way in order to ensure that over time teachers will get the correct concepts and practices in educational measurement and evaluation. The book consists of seven chapters. The first chapter deals with basic concept of educational measurement and evaluations. The second chapter entitled taxonomy of educational objectives. The third chapter presents scales of measurement and types of tests. This book also takes a fresh look at accepted assessment concepts and issues such as validity and reliabilities. It presents in chapter four. Chapter five relates with evaluation of teaching learning process. Chapter six contains statistical concepts essential for understanding the interpretation and discussion of result using the results of measurement and evaluation. In the last chapter of this book.
