Denton Jr., 1993-04-30 Many scholars call the Persian Gulf conflict the first prime time war Certainly the technologies strategies and skills of the military in managing the public agenda were equal to those of the television networks and major print organizations The Media and the Persian Gulf War focuses on the processes and effects of the media both leading up to and during the mother of all battles in 1990 and 1991 Broad in scope and varied in methodologies the chapters span the media of television radio print and film Chapters discuss such specific topics as the relationship between the press and the censoring military CNN's and CSPAN's coverage how talk radio and television covered the war the media's depiction of women in the military the Gulf War as a referent in advertising and how popular culture legitimized the war This work will be an important resource for scholars in political and mass communication popular culture and political science     **Triumph Of The Image** Hamid Mowlana, 2018-02-07 THE TRIUMPH OF IMAGE over reality and reason is the theme of this book New communication technologies have made possible the transportation of images and words in real time to hundreds of millions of people around the world We thought we witnessed the Gulf War as we sat mesmerized by the imagery But the studies from the many countries assembled for this book suggest that it was not the war in the Persian Gulf that we witnessed but rather imagery orchestrated to convey a sense of triumph and thus to achieve results that reality and reason could never have achieved The book offers contributions from thirty five authors in eighteen countries including short samplings from the media of several regions The authors explore the social economic and political context of media coverage in their countries the domination of one image in most of them and the struggle for alternative perspectives The authors probe the dynamics of image making and pose some challenges for the future as well as provide us with a unique glimpse of how the world outside of the United States as well as many Americans viewed the war in the Persian Gulf and how the dynamics of image making and information control operate Triumph of the Image will be useful to scholars and students in communications and mass media international relations political science cultural studies propaganda censorship and contemporary history as well as to the general public     News Media in the Persian Gulf War Zhongdang Pan, 1991     The Gulf War as Popular Entertainment Paul Leslie, 1997 The essays presented here provide analyses of war in the post modern era specifically the Persian Gulf War Scholars interested in war applications of post modern theory the media communications a history of modern warfare and international affairs will find the analyses illuminating applicable as they are to any post modern combative event such as Chechnya or Bosnia The introduction details the focus of each paper and the concluding chapter connects them conceptually offering a new post modern perspective of war The essays include The United States United Nations Coalition in the Persian Gulf A Critical Evaluation Ali Kamali The Media in the Persian Gulf War from Carnival to Crusade Julia Burkhart The Military
