Panic Grass:

The Grasses of Ohio John Henry Schaffner, 1917 **Grasses** Robert H. Mohlenbrock, 2001-07-31 Since the publication of the first edition of *Grasses of Ohio* from Panicum to Danthonia in 1973 twenty additional taxa of grasses have been discovered in Illinois that are properly placed in this volume In addition numerous nomenclatural changes have occurred for plants already known from the state and many distributional records have been added This second edition updates the status of grasses in Illinois Paul W Nelson has provided illustrations for all of the additions Because the nature of grass structures is generally so different from that of other flowering plants a special terminology is applied to them In his introduction Robert H Mohlenbrock cites these terms with descriptions that make the identification of unknown specimens possible Mohlenbrock's division of the grass family into subfamilies and tribes is a major departure from the sequence usually found in most floristic works in North America Synonyms that have been applied to species in the northeastern United States are given under each species A description based primarily on Illinois material covers the more important features of the species The common names Panic Grass Billion Dollar Grass or Japanese Millet Thread Love Grass and Goose Grass are the ones used locally in the state The habitat designation and dot maps showing county distribution of each grass are provided only for grasses in Illinois but the overall range for each species is also given The Book of Grasses Mary Francis Baker, 1912 *Seventh Catalog of the Vascular Plants of Ohio* Tom S. Cooperrider, Allison Cusick, John T. Kartesz, 2001 Scientific study of Ohio's plant life began in the late eighteenth century and the first catalog of Ohio's vascular plants was published in 1860 The most recent catalog published in 1932 has understandably become outdated Now Tom S Cooperrider and his co authors Barbara K Andreas Allison W Cusick Guy L Denny John V Freudenstein and John J Furlow provide a comprehensive modern reference covering the Ohio vascular flora Including two thorough indexes one to scientific names one to common names this user friendly book will be invaluable for conservation and environmental workers in Ohio and surrounding states *Historical Common Names of Great Plains Plants, with Scientific Names Index: Volume II: Scientific Names Index* Elaine Nowick, 2014-10 Containing thousands of entries of both vernacular and scientific names of Great Plains plants the literature that informs this exhaustive listing spans nearly 300 years Author Elaine Nowick has drawn from sources as diverse as Linnaeus Lewis and Clark and local university extension publications to compile the gamut of practical and often fanciful common plant names used over the years Each common name is accompanied by a definitive scientific name with references and authority information Interspersed with scientifically correct botanical line drawings the entries are written in standard ICBN format making this a useful volume for scholars as well as lay enthusiasts alike Volume 2 indexes the scientific names of those species followed by listings of all the common names applied to them Both volumes refer the common and scientific names back to a list of 190 pertinent authoritative sources Grasses and Forage Plants Charles Louis Flint, 1887 **A Practical Treatise on Grasses and Forage Plants** Charles Louis Flint, 1888 A practical treatise on Grasses and Forage
