the first months of Operation Barbarossa the German invasion of the Soviet Union it became obvious to battlefield commanders that the Panzer III had become obsolete as a main battle tank and it began to be replaced by the Panzer IV as the main front line battle tank The Panzer III was relegated to a secondary role but its chassis proved the basis for the Sturmgeschütz III which became the most widespread German armoured vehicle of World War II [Panzer III German Army Light Tank](#) Dennis Oliver,2023-03-09 The Pzkw III tank was the mainstay of the Panzer divisions during the Blitzkrieg era and made up the bulk of the armored force sent to North Africa Although less heavily armored than many of its opponents it was sturdy and reliable and its main armament was the equal of any enemy weapon it was called upon to face Operating in one of the most inhospitable environments on earth the Pzkw III was at the forefront of the dramatic advances of 1941 and the defensive efforts of the following year all undertaken in the incredible vastness of the Libyan desert This volume of the TankCraft series concludes the story of the tank's North African service examining the models that took part in the campaign beginning with the retreat from El Alamein and ending with the surrender of the last Axis forces in Tunisia in May 1943 Using archive photos and extensively researched color illustrations to examine the Pzkw III and the units that operated this deservedly famous armored vehicle during the final battles in North Africa A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeller needs to recreate an accurate representation of these historic tanks **Bolt Action: Armies of Italy and the Axis** Warlord Games,2013-11-20 While many nations flocked to the side of the Allies others joined forces with Germany as part of the Axis This volume is the definitive guide to the armies of Italy Hungary Bulgaria Romania and Finland Fight the Winter War against the Soviets hold back the British in North Africa or help shore up the German offensives on the Eastern Front with this latest supplement for Bolt Action *The Battle of Prokhorovka* Christopher A. Lawrence,2019-06-01 The Battle of Kursk was one of the defining moments of World War II In July 1943 German forces under Erich von Manstein one of Germany's best generals launched a massive attack in an offensive code named Citadel A week later the Soviets counterattacked sparking a huge clash of tanks at Prokhorovka the largest armor battle in history pitting more than 600 Soviet tanks against some 300 German panzers Though the Germans gained a tactical victory destroying huge numbers of Soviet tanks they failed to achieve their objectives and in the end the battle marked a turning point on the Eastern Front The Red Army gained the strategic initiative and would not lose it **Michael Wittmann & the Waffen SS Tiger Commanders of the Leibstandarte in WWII** Patrick Agte,2021-03-01 German Panzer ace Michael Wittmann was by far the most famous tank commander on any side in World War II destroying 138 enemy tanks and 132 anti tank guns with his Tiger This classic of armored warfare is both combat biography and unit history as Patrick Agte focuses on the life and career of Wittmann but also includes his fellow Tiger commanders in the 1st SS Panzer Division Leibstandarte SS

Panzer III—German Army Light Tank Dennis Oliver, 2020-08-31 Concentrates on the Panzer III as operated during the invasion of the Soviet Union a mixture of history camouflage and models well done ModelingMadness com The PzKpFw III tank was the mainstay of the Panzer divisions during the Blitzkrieg era which could fairly be said to have ended with the Germans failure to take Moscow in the winter of 1941 Although less heavily armored than many of its opponents and somewhat outgunned by the latest Soviet types the PzKpFw III was at the forefront of the advances made over almost impossible distances during the summer and autumn and provided the core of the armored reserve that fought the defensive battles of the winter months In Dennis Oliver's latest volume in the TankCraft series he uses archive photos and extensively researched color illustrations to examine the PzKpFw III and the units that operated this deservedly famous armored vehicle along a 1 000 mile front during the battles of Operation Barbarossa the German invasion of the Soviet Union A key section of his book displays available model kits and after market products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic tanks This book will prove invaluable for model makers and military historians interested in this often overlooked but important AFV This is another great addition to the TankCraft series and is highly recommended to all Miniature Armoured Fighting Vehicles Association

Panzer III Michael Hayton, Dick Taylor, 2017-02-15 When Hitler unleashed Operation Barbarossa against the Soviet Union in June 1941 the 23 tonne Panzer III was in the vanguard of the German assault The German Panzer III tank official designation Panzerkampfwagen III Sd Kfz 141 abbreviated to PzKpFw III saw widespread use during the Second World War campaigns in Poland France the Soviet Union and the Balkans and in North Africa with the famous Afrika Korps A small number were still in use in Normandy 1944 at Anzio 1943 in Norway and Finland and in Operation Market Garden 1944 Some 5 774 were built between 1937 and 1943 Although the Panzer III was conceived to operate alongside the infantry supporting Panzer IV to fight other tanks and armoured fighting vehicles the roles were reversed when the German Army came up against the formidable Soviet T 34 tank A tank with a more powerful anti tank gun was needed so the Panzer IV with its larger turret ring and long barrelled 7 5cm KwK 40 gun was used in tank versus tank battles with the Panzer III being redeployed in the infantry support role Production of the Panzer III ended in 1943 although its dependable chassis provided hulls for the Sturmgeschutz III StuG III assault gun one of the most successful of the war until the end of the war Centrepiece of the Haynes Panzer III Tank Manual is the Bovington Tank Museum's PzKpFw III Ausf L which has been restored to running condition This tank belonged to the same battalion as the museum's famous Tiger I the 501st Heavy Panzer Abteilung and is an early production Ausf L modified for tropical service It was shipped via Naples to Benghazi in Libya in July 1942 and was issued to the 8th Panzer Regiment part of the 15th Panzer Division and probably

fought in the Battle of Alam Halfa It was subsequently captured by the British Army and shipped to the UK The Tank Museum has restored the tank to running order has repainted it in its original camouflage and markings and is currently replacing many of the ancillary tools and equipment that it carried **Panzer III** Stefan Draminski,2020-05-19 *M3 Medium Tank vs Panzer III* Gordon L. Rottman,2013-02-20 This was a duel between the stalwart of the Wehrmacht armored divisions the Panzerkampfwagen III and the American s as yet untested M3 Grant In reality both would prove unequal to the task as they floundered amidst the rugged hills and ravines of the Tunisian landscape This book charts the design and development of these two disparate rivals their vastly different armament and armor as well as their tactical concepts Analysing the strengths and weaknesses of these two opponents this book explores the successes and failures of the Grant and Panzer III as they clashed at the critical battles of North Africa Moreover it is an insight into the lives of the tank crews themselves as they struggled with the twin horrors of tank warfare and the fight for survival amidst some of the most inhospitable terrain on earth [Index of Model Periodicals, 1971-75](#) Paul Cardwell,1977 **Panzerkampfwagen III** David Doyle,2020-05-28

Initially developed to combat armored vehicles in time the type evolved into an infantry support tank Although production of the Panzer III ended in 1943 the type remained in service through the end of the war Through over 160 photos this volume chronicles the design development and deployment of this ubiquitous German tank This material is arranged in nine chapters each focusing on a specific production model or Ausfr ng of the tank Comprehensive tables reveal the details of the performance and technical specifications of each variant Part of the Legends of Warfare series provided by publisher

Panzer III, German Army Light Tank Dennis Oliver,2022-10-24 The Pzkw III was the most effective tank available to the German army in North Africa during the battles of 1941 It outnumbered all the other types in service with the Afrikakorps at that time and when compared to the Pzkw I and Pzkw II designs it was a potent modern weapons system Although less heavily armored than its British opponents it was sturdy and reliable and its main armament was the equal of any enemy anti tank gun it was called upon to face This volume of the TankCraft series the first of two parts examines the story of the tank s North African service beginning with the arrival of Panzer Regiment 5 in Tripoli and ending with the advance to El Alamein in late 1942 Dennis Oliver uses archive photos and extensively researched color illustrations to examine the Pzkw III and the Panzer units that took part in the early battles in North Africa A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic tanks
